The Best Tools For Creating and Animating Virtual Worlds.

Create original characters, props, and scenery with ModelPro—a powerful set of modeling tools featuring Bezier curves, intuitive tool interfaces, Boolean solid modeling, and incredible DigitalClay™ surface sculpting capabilities.

Animate your virtual environment on the Digital SoundStage™. The TrueSound™ 3D sound capabilities—sync sound and motion flawlessly, and generate Doppler sound effects—make this the only comprehensive 3D production studio. With a key-frame, event-based timeline, it is easy to bring your scene to life. Easily create intricate, unscripted motion with Kine-Magics™ and RealPhysics™ animation plug-ins.

The incredible FlashRender™ ray tracer will bring everything together in photo-realistic detail, at a speed unrivaled on the Macintosh.

Listen to the strong commendations from the press: Digital Video says, "Presenter Professional lets you quickly create complex models, and even add sound effects.

It's as if VIDI has blended all the strong points of today's 3D modeling programs;" according to MacWeek, Presenter Professional features "an all-pro modeler and many advanced animation tools, including 3D sound. . . We haven't seen a similar capability in any other product."

If you've got another 3D product, call VIDI today and ask for competitive upgrade pricing.

For users of
Director, Premiere, and AfterEffects

Attention! Director, Premiere, and AfterEffects Users. Add New Life and Depth to Your Productions.

With Presenter Professional's Digital SoundStage, you can create and animate the virtual worlds of your dreams and imagination, sync animation to sound and live-action in 3D, then export to your favorite post-production package

Presenter Professional's Digital SoundStage is the ideal pre-production and production tool for creating the animated motion and sound-effects for use in your film, game, and multimedia productions. Presenter Professional is the only 3D product that offers the ability to mix 3D animation with live-action film and live sound, all on a 3D virtual sound stage that exists completely on your desktop. Presenter Professional provides a giant performance leap over existing 3D animation and multimedia software.
