

Launch Your Imagination Into Another Dimension

Visual by Bob Sauls, John Frassantio & Associates, Houston, Texas

Roar into the 3D world of Presenter Professional where Productivity is defined as

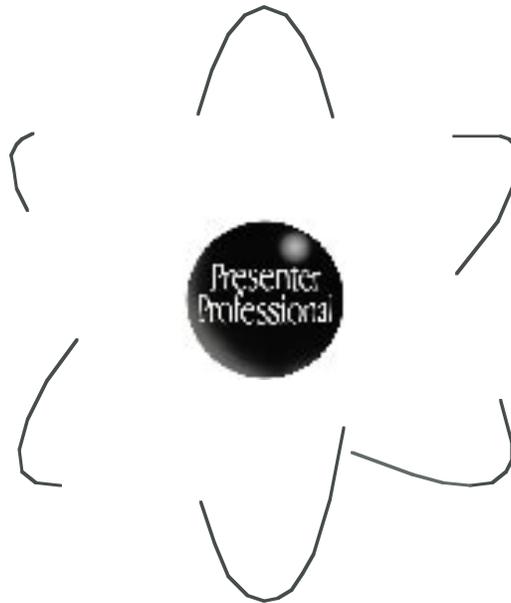

$$[\text{Sound}^{3D}] \times [\text{Animation}^{3D} + \text{Modeling}^{3D}] = \text{3D Multimedia Powerhouse}$$

You are no longer bound to the flat-world images and sounds of ordinary digital post-production. Call VIDI or your local dealer now, and push your creativity and productivity to amazing new heights.

Presenter Professional

The Nucleus of 3D Multimedia Desktop Production

VIDI's Presenter Professional launches the innovative concept of 3D Multimedia with 3D Sound. It gives you complete control of your production—broadcast television, multimedia or motion pictures. You become art director, cinematographer, special effects supervisor, film editor, lighting technician, audio effects supervisor, film director, prop master, location/set coordinator, and casting director—right at your desktop production studio.

Transform ordinary multimedia sound into astounding 3D sound—Create exciting sequences combining live action projection with 3D animation—Build stages, props and cyber-actors in a premiere 3D modeling environment—Generate photorealistic imagery and special effects for film and video—Easily reproduce phenomena found only in nature—Intuitively control your production from beginning to end.
