

# QuickErase

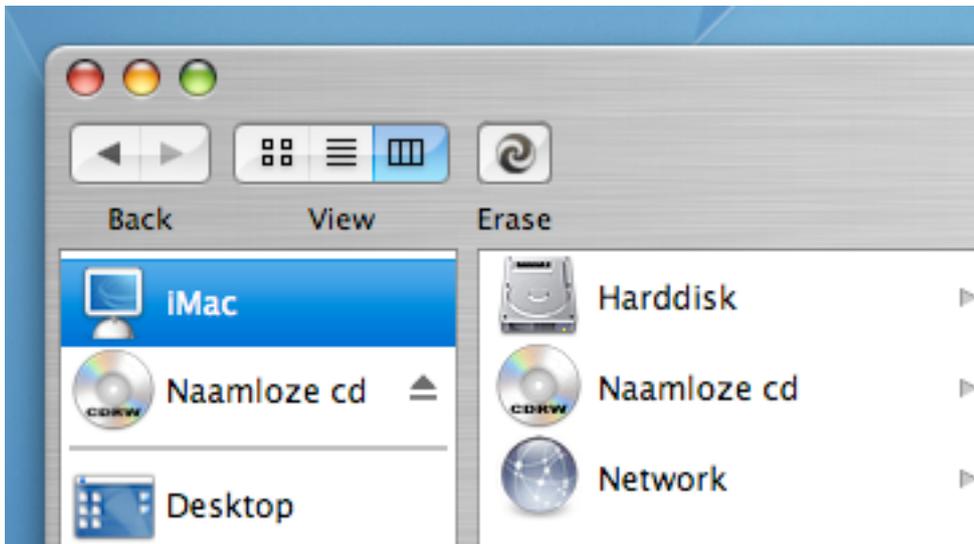

QuickErase is a helpful aid application for erasing a cd/dvd's in the Finder. Differently than other cd/dvd erase applications, QuickErase has been developed especially for the use in the toolbar in a Finder-window.

## ***Simplicity is it strengths !***

When you want to erase a cd/dvd, first put in a disk.

The disk shows up in the Finder-window. (see illustration below)

Select the cd/dvd and click on the QuickErase icon in the toolbar.  
A small window appears, click "Erase"

## **Installation**

To install the utility application:

1. Double click on the .zip file.
2. Open the new folder.
3. Drag the utility application "QuickErase" to the folder "Utilities" on your harddrive.  
(Click in the "Finder" on the menu item "Go" and choose "Utilities")
4. To make a link to the toolbar drag the application "QuickErase" above the finder-window toolbar, wait 2 seconds and the toolbar will open.  
For the best use, you can put the link next to the "view" button. (See illustration above)

## **Remove**

To remove the utility application:

1. Drag the application "QuickErase" out of the "Utilities" folder to the trash.
2. To remove the link from the toolbar, press the command key (apple), and drag the icon "QuickErase" from the toolbar. The link is now removed.
