Newton Programming Courses
from Newton Systems Group Developer Training

The fastest way to come up to speed in Newton 2.0 Development is by taking advantage of the NSG Developer Training courses. These courses will cut your learning and development time while providing you the expertise needed to write useful and powerful Newton 2.0 applications using our state-of-the-art Windows and Mac-hosted development environments. Keep your eye out for the release of Newton Programming self-paced and online courses as well.

Newton Programming: Essentials 2.0

Learn how to develop applications for Newton using NewtonScript, NewtApp, how to develop and optimize your Newton 2.0 applications using Newton Toolkit 1.6 for Windows or Macintosh. NewtonScript is small, dynamic, and robust, and with the use of NTK lets you interactively develop your applications without having to execute sequential edit, compile and link cycles. NewtApp is a new application framework designed to help you build a complete, high-quality and full-featured Newton application quickly and easily. And with a graphical interface and powerful, reusable components, your applications become easier to develop and maintain. Communications are briefly overviewed.

Schedule for the Week:

Monday	Tuesday	Wednesday	Thursday	Friday
-Newton 2.0 System Overview	-Understanding Inheritance	-The View System and Justification	-Debugging and Tools	-Stationery -Routing
-NewtonScript	-Protos	-Lab Time	-Soups and Stores	-Lab Time
-Structure of an Application	-Programming with NewtApp	-Lunch with DTS -Lab Time	-Rich Strings -Lab Time	
-Newton Toolkit	-Lab Time			

This course will provide students with all the knowledge and hands-on experience they need to begin building powerful Newton 2.0 applications.

Length of class: 5 days from 8:30 am to 5:30 pm

Prerequisites: Development experience using an object-oriented programming language and basic familiarity with a PC or Macintosh, and a Newton MessagePad.

Tuition: $1500

Dates: May 20 - 24, June 17 - 21, July 22 - 26, August 9 - 13

Newton Programming Self-Paced Training

Soon to be released are Newton Programming Self-Paced training courses which will provide you with convenient and inexpensive access to Newton Developer training. Included with this training are technical articles, step-by-step coding labs, illustrations, demos, online assistance, and sample code.

Check out the beta version of Phase 1 of our self-paced Newton 2.0 Communications course at **http://dev.info.apple.com/newton/newtdevinfo/nsgtraining.html.** Your comments are welcome!
