Installation

First install Quicktime for Windows version 2.0.1 by launching the setup.exe in the QTW_201 directory of the cdrom.

Starting the Demo

Just launch the English (MAENGLIS.EXE) or French (MAFRENCH.EXE) executable from the cd;
Your monitor should be set at least in 256 colors; thousand colors is recommended.

Loop Mode

To make the demo loop continuously, launch the application while holding down the 'shift' key.

To stop the demo, type ALT-F4.
