BANE OF THE COSMIC FORGE:

The password to enter the door in the SE tower of the 1st level is "SNOOPCHERI". Use the rotten cheese on the mousehole. Some small help for playing the game successfully: When you create your characters, it may be a good idea just to make all of them Dracons.

This is untested, but unless you have at least one of this fire breathing race you surely wont survive the game. So maybe it would be good to have more. Use a good mix of the classes, try to take one of each spell class and a good solid thief that is at full strength. Get a good enough thief and you dont need a fighter. It may be slow, but keep rolling till you get the best character possible. Be sure to make at least one character female, there are places in the game where this is a must. Don't do it and be sorry later! Diversify your skills.

Have each character specialise in a few skills relative to his class. Do not worry about developing weapons skills, you have no use for them if you created your party correctly. In fights early in the game use DRACONS BREATH ATTACK, just be careful not to over extend yourself. Rest after each encounter, backing up your hard work. Always search the area after a combat. Search each square you step in. Not only this, but search facing all four directions, many things can only be found that way. Thieves are not always true. If you find a lock and have your thief open it, allways guess it is poison unless you are 100% sure (I.E. tried it before) because it is better to suffer something else than to die by getting this wrong. Don't bash doors early in the game! If your characters are not very strong you will be sorry. Jammed doors do you no good, as you might never be able to open them again. Same goes for picking the lock. Wait till you get a caster capable of conjuring knock knock with at least 18 points (prefereably 24) and do it this way. It is much more sure. Once you know there are secret panels or buttons, keep walking past them until you discover them. You can find them by looking at the maps and know where they are, sometimes it takes awhile to sense them.

#### BIO CHALLENGE:

During play, press 'ESC' to pause the game and press 'G'. This will take you to the end of the level guardian.

LEVEL 1: Get the green armours as soon as possible. If you have all of the amulet, don't go to the sphere unless you have collected at least four lots of monster remains, you'll need them to battle the end of level guardian. He's a bit soft in the head, so time your jumps carefully, and hit him there.

LEVEL 2: There are four planets to visit, go to everyone if you want to get maximum points. Again, the green armour is very useful, so get it as quickly as possible. There's loads of ammo for the guardian of this level, unfortunately that means there's loads of monsters to deal with. The back of the guardians head is the weak spot.

LEVEL 3: Stand on the slabs and summersault. There are six planets here, and the transporters are more difficult to so, so you have to watch more carefully.

BRIDES OF DRACULA:

When you're Dracula, go right from the first screen and turn the first two women into vampires, taking them back to their coffins. Then return to that screen again, walk between the lift and the second table and crouch down just past the skulls on the floor. A vampire should then appear ready to be put into her coffin. Do this again and again to get all eleven vampires, and then polish off heising before he knows what hit him.
