TACTICAL MANAGER:

On the main screen type "CODE", a prompt will appear asking you to enter a code. Enter any of the following codes:

"CODE" _____	A list of cheats will appear.
"BIDS" _____	Erases all bids from memory.
"LIMI" _____	Disables the 110 team rating limit.
"BEST" _____	Gives you the best players.
"FREE" _____	Enables managers to buy your players free.
"POOL" _____	Saves European pool to disk.
"VIEW" _____	Programmers tool.

"PROM"_____Last season's promotions and regulations.
 "MEMO"_____Show available memory.

These last couple are activated by typing them in on the main screen without typing "CODE".

"EDIT" to enter the full editor. Now press 'W' to enable you to manage any team. A small green and yellow strip should appear just along from the LOGO and AUTO icon things, under the second logo space. You can now go to the Manager's menu and JOIN any club. Your rating automatically jumps to that of the new team, unless you are joining a lesser club.

Finally, if you want to alter teams because of transfers among Premiership and Division 1 teams, to maintain more accurate club records, instead of creating a whole new player in the editor, it is best to make yourself the manager of the club who bought the player, enable "FREE" transfers, and transfer the player that way. This means the player keeps his original ID number.

For example, Paul Furlong was bought by Chelsea from Watford, so to enable this change, simply become Chelsea manager, enable "FREE" transfers, and approach Watford.

*TEARAWAY THOMAS: (New cheats by K. Krellwitz)

At any time, type any of the following: (screen will flash to let you know if it worked.)

"NORMAL"_____Disables all active cheats.
 "LIFE IS TOO SHORT"_____For infinite lives.
 "IRON MAN THOMAS"_____For invincibility.
 "ANY LEVEL"_____Activate stage skip.
 (Down cursor to advance level and up to go back)

There is a secret level located on level 1.3, and can be found by climbing up to the ninth branch of the tree (which is the one with the birds on it) and running off the end. You then will be whisked off to a room containing some diamonds which can be collected for extra points.

This next cheat didn't work on my version of the game, but I left it in just in case it works on other versions. At any time, type "TIMEFLIESLIKEABANANA" for infinite time.

TERMINATOR II-THE ARCADE VERSION:

When the game has loaded select your control method at the options screen as usual. Instead of going to {Start Game} press 'ESC'. Wait for the high score chart with the picture of the T-1000 to appear. As soon as the last digit is printed on the high score chart (the last 0 on the 10000, in 10th place), click the left mouse button (or the joystick fire button if that's plugged in to port one). Note you must click the button 0.19 seconds after the last digit on the high score chart has been printed on the screen. If you take longer, or click before the last digit is printed, the cheat will not work, so precise timing is required.

If you find this difficult there is an alternative. Hold down the fire button or left mouse button at the high score table until it is finished. This won't always work though.

Go back to the options screen. If you can see the picture of Arnie, but no options are displayed, then the cheat worked. Left click on the mouse (or joystick) to move on. Click again to skip the high score display. If you allow the high score chart to be printed again the game may mess up. Start the game.

If you didn't get it to work restart the whole procedure.

Once you've started playing you'll notice that a gunpowder and energy reading is displayed for player two even though he isn't active. Now pause the game (press 'P' not 'F1') and type in all the function keys in order F1, F2, F3, F4, F5, F6, F7, F8, F9, and F10 and you should skip the level you are presently playing. This cheat is for one player only.

On the first level go to the right until you come upon three mushrooms in a row (The first mushrooms you will see). Get the first mushroom, jump over the 2nd one and get the 3rd one. Now continue to the right until you reach a section with two special weapon power-ups that are next to two mushrooms (right before the first bridge and there is a cloud above them). Stand in front of the first power-up and pull down to take it. Now jump over the other power-up and the first mushroom. Get the 2nd mushroom. Work your way past the bridge until you come to the next tree in the background and stand in front of the tree. Now push the fire button and push up on the joystick. The screen should flash yellow letting you know it worked. Finally press 'C' for invincibility and press 'N' to advance levels.

NOTE: If you die before you activate the cheat you must press 'RETURN' to abort the game and restart. Also, you can pick up all the mushrooms and power-ups between the sections.
