HOW TO SEND US YOUR SUBMISSIONS

=====

IMPORTANT! We can no longer accept your music modules as submissions for the Amiga Format CD owing to copyright problems with sound samples from copyrighted sources. Thanks for all your music submissions up till now, but please don't send any more...

We want you to send us your programs, animations, pictures, game tips and cheats, hacks, hardware projects, basically anything you can think of that you have done with your Amiga. It must be your own work - no passing off Chris Achilleos' greatest masterpieces as your own, and we need a variety of things from you in addition to your submission and we need them on your disk.

1. We need your name and address so that we know where to send your prize. You should also put your name and address on labels on your media.

2. We need two read me files accompanying your work; one for us and one to go on the CD itself (title them AF_ReadMe and ReadMe). These can be as in-depth as you want them to be, but should contain instructions for us on getting your work running if it is a complicated procedure, including things like necessary libraries and so on. The readme that will go on the CD will be the introduction of your work to the whole Amiga Format reading world so check your spelling and grammar and show people just what is so good about your work.

3. If your work requires files such as libraries which you cannot send us owing to copyright reasons make sure we know about them so that we can either arrange to put them on the CD, or warn our readers about them (you will probably do this in your CD read me).

4. Be aware that we won't be as interested in programs that need to boot or that require to be in a certain place on the CD, unless, of course, that place happens to be in your directory on the CD. Your directory will almost certainly have the path:

"AFCDx:ReaderStuff/your_name/" but then no-one will be able to run your program except from the CD, limiting its usefulness or appeal.

If we do put something on the CD that needs to autoboot, it will almost certainly only be as a DMS that readers will have to extract to disk before they can use it.

You can send us your work on pretty much any sort of media whether it be floppy disks (high or double density, but don't send us work on high density disks unless you yourself have a high density drive. High density disks used in a double density drive aren't as reliable as using double density disks), a floppy disk back up using AmiBack, Quarterback or any of the shareware backup tools, Zip disk, Jaz cartridge, SyQuest 44MB, 88MB or 105MB or EZ Drive, DAT tape backup from any of the above-mentioned programs (the only thing we're not very keen on is the Video Backup System that Power Computing sell in the UK, we've had nothing but trouble with it), MIME e-mail to afcdsubs@futurenet.co.uk, basically anything apart from a listing on paper. We don't want to have to type in your program too!

We will return any media more expensive than high density floppies via registered post, so you won't have to worry about losing seventy quid's worth of Jaz cartridge.
