

Welcome to MacMedic™

Welcome to MacMedic™, The Tools Your Mac Can't Live Without™. MacMedic™ is a collection of utilities that provides complete data protection and recovery. With MacMedic™, you can ensure that your computer is in the best possible condition with minimum effort.

About this Guide

This manual provides instruction for using MacMedic™. Before using MacMedic™, you should be familiar with the basic Macintosh terms and operations. Please see your Macintosh documentation for further instructions.

Registering MacMedic™

Please take a moment now to fill out and return the MacMedic™ registration card. If you've purchased MacMedic™ directly from Total Recall Software, we have already registered you as an owner. Being a registered owner entitles you to technical support and allows us to tell you about software updates.

Completing and returning the registration card is critical if you did not purchase MacMedic™ from Total Recall Software. You will not be entitled to support and upgrades until we receive your registration.

System Requirements

To install and use MacMedic™, you need to meet the following minimum requirements:

- Macintosh running Mac OS 7.1 or higher
- A hard disk with approximately 20Mb free
- 6Mb RAM available
- Hierarchical File System (HFS) or HFS Extended file system installed.

MacMedic™ does not support Macintosh File System (MFS) volumes and 400k floppy disks. Total Recall Software does not provide or support conversion of MacMedic™ from a later to an earlier version to support these file systems.

Copyright

Under the copyright laws, no part of this manual may be copied, stored in a retrieval system, or transmitted by any means, electronic, mechanical, photocopying, recording or otherwise, in whole or in part, without the written consent of Total Recall, Inc. This exception does not allow copies to be made for others, whether or not these copies are sold. Under the law, copying includes translating into another language.

Information in this document is subject to change without notice and does not represent a commitment on the part of Total Recall, Inc. The software described in this document is furnished under a license agreement or nondisclosure agreement. The software may be used or copied only in accordance with the terms of the agreement. It is against the law to copy the software on any medium except as specifically allowed in the license agreement.

This software program is designed to detect potential and actual disk and file system problems. Its code is based on the most up to date information possible, with the acknowledgement that such information, due to the nature of the industry, can change at any time. Problems detected by this product may occur only under specific circumstances.

The MacMedic™ warranty consists of replacing defective distribution disks and shall in any case be limited to the amount paid by the customer for the MacMedic™ program. Total Recall, Inc. makes no warranty, either express or implied, with respect to the quality, performance, merchantability, or fitness of this software program for a particular purpose. The software is sold “as is” and as the purchaser, you assume the entire risk as to its quality, performance, and the reliability of information contained in the program. Total Recall, Inc. is not responsible for any damage or loss to data, software or hardware which results from the use of this software program or its manual. In no event will Total Recall, Inc. be liable for direct, indirect, special, incidental, or consequential damages resulting from the use of this software or a reliance on the information contained in the software or its documentation.

Trademark Acknowledgements

All company names and software and hardware product names listed either in this manual or in the software report are known to be trademarks or service marks of their respective manufacturers. In addition, terms suspected of being trademarks or service marks have been appropriately capitalized. Total Recall, Inc. cannot attest to the accuracy of this information. Use of a term in this manual or software program should not be regarded as affecting the validity of any trademark or service mark.
