1.2   Description

F1GPPalette.pprx is an ARexx for use with PPaint 7.

It's pretty simple. All it does is to reduce the current image to less
than 32 colours, reorders the palette and then inserts F1GP's default
colours which are used to render the menus in the game.

You will need to use F1GP-Ed to convert the images into the format required
by F1GP before you can use them in the game as backdrops.

1.3 Installation & Usage

Installation is very simple. Just copy the F1GPPalette.pprx to
PPaint:Rexx/

Run the script from within PPaint using the toolbar.

1.4 Distribution Conditions

            Majordomo_approve.thor is freely distributable, but the copyright ←
                remains

            author
                .

  (1) None of the distributed files are changed in any way
  (2) It is not sold for profit and it is not included on any disks
      that are sold solely for profit (includes magazine coverdisks)
  (3) The distribution contents remain complete (see list below)

If this software is to be sold for profit, permission must be obtained from
me, the
            author
                .

Both Aminet and Amiga Format have been granted permission to distribute
this software on their CDs.

1.6 Acknowledgements

Thanks to the guys at Cloanto for PPaint 7.0, and the continued support and
development of PPaint. It's amazing what PPaint ARexx scripts are capable
of!

I'm also the author of F1GP-Ed and maintain several World Wide Web pages on
the Internet. These include a page dedicated to this datatype where the
latest version can be found. The Amiga Formula One Homepage provides just
about everything available to Amiga F1GP players including WWW pages F1GP
Hall of Fame and the Internet F1GP Championship. There's information on
all of the Amiga F1GP utilities (available for downloading too) as well as
lots of other goodies and other Amiga / Formula One related links. So, for
an Amiga F1GP junkie's dream, set your web browser to:
