## 1.2  copyright

To make things short...

1.  Acey Ducey and it's contents may not be altered in any way.

2.  Public Domain Pools that charge more than the following amounts
    for their disks, may place Acey Ducey in their pool after coming
    to an agreement with me only. Otherwise, it may swim in any pool.

    Lets say...  $3,- for a 3 1/2" Disk (or aquivelant to DM  5,-)

```
        and... $25,- for a CD              (or aquivelant to DM 35,-)

           excemption
              3.  Acey Ducey may not be sold for commercial use.

  4.  Further more to save my skin...

## 1.3  dieter

```
    Dieter Hildebrandt, who obviously helped many persons with
    his PD Serie "Do It Now II", is excempted from point 2. in
    this copyright.

    Of coarse. The same goes for Fred Fish...

                    Acey Ducey is Giftware

             This dousn't mean that it's for free!

 I decided to release non-demo versions from now on, since releasing
 demo's from other projects didn't help me at all. Now it's up to you,
 to eventually see future updates and sourcecodes.

 Take note! Programmers loose there motivation if they aren't supported
         by any meens.

 Motovative gifts...

    Bug report; If you don't like writing and walking to the next
              post office, then simply give me a call.

    Own programm; As long as it runs.

    Own music modules; .Med or .Mod that I may release with my projects.

    Rock CD; 70's - 80's

    Money; Eurocheck, coins to collect, or see account.

    or whatever it's worth to you; Postcard, motorbike, BigMac,

## 1.5  system

Following requirements are neccesary for this programm to run...

Since this programm hasn't been tested on any other Amiga, I
recon that you'll need OS 2.1.

Informer must be copied to your "C:" directory.

cando.library & CanDoGfx.library must be copied to LIBS:

                /C/Informer

                /Libs/cando.library
                     /CanDoGfx.library

## 1.7  aga

                  YOU need to let me know.

  The new version will probably be an AGA.version since many users like
  to see colors and hear some tunes in games.

Build in Highscore.

Unlimited bet.

Use board drawn by you.

## 1.8  rules

Backgammon... See further below for Acey Ducey rules!

The object of the game is to get all the knobs around and off the
board.

Black knobs move clockwise (Amiga enemy default).
White knobs counterclockwise.

Both colors of the dice are rolled to start the game until both
dice don't match. The color with the higher roll must take the roll.

A knob may only be moved to a spot where the apponent does not have
2 tiles. 2 knobs at one spot is safe.

If the apponent has only 1 knob here, you may kick it off the board.
The apponent may not move any other knob until all kicked out knobs
have been placed on the board again.
Black->Upper left side,
white->Bottom left side of board, according to the roll.
You may not take the total of both dice to move 1 knob back in.

You may move 1 knob total both dice only if not both dice would
not place you on the apponents safe spot.

Bring all knobs into the last room.
Black->Bottom left.
White->Upper left.
The knobs may now be moved off the board. If a roll is higher than
the highest laying spot, you may take the highest laying spot off
the board.

The first player to roll doubles may double the multiplier. Just
click on it.
The next time the Multiplier may be doubled again, is from the
apponent when rolling a double. If the Multiplier is at 64, it will
be started at 2 again.

The player to be off the board first, you guessed it... wins.

Acey Ducey Backstreet rules...

The same as above but...

The game is started with all knobs off the board and placed in
according to your roll.

When rolling a "1" and a "2" also known as "Ace(y)-Duce(y)", move.
If able to accomplish this move either by jumping in or replacing
onto the board or just simply moving, then you may pick doubles of
your own choice, move, aaaand roll again.
The multiplier may not be doubled when choosing doubles.

When jumping back off the board, the only knobs that may be taken
off the board are the knobs that exactly match the dice.

If all this seemed too complicated, just play the game and don't
turn the reporter off. He'll help you somewhat on the way.
