To use WordPad is very easy all buttons are self-explanatory, but heres a brief run-through.

Main Toolbar:

New - This clears all text in the editor window.

Open - Allows you to open an existing text file.

Save - Allows you to save your text.

Print - This will print the current text in the editor window.

Cut - Deletes the selected text into the clip board.

Copy - copies the selected text into the clipboard

Paste - Brings the contents of the clipboard into the editor window

Format Toolbar:

B - Makes the text Bold

I - Makes the Text Italic

U - Makes the text Underlined
