_HERO   Templates of Doom   by   Pete Antoniak
          Templates of Doom   by   Pete Antoniak

commands to discover the characters and plot of an exciting adventure.
You will start with the simple and work toward the complex. Remember,
you are being timed. Par for this template is
Your start time was:

    The first task is to find the NAME OF THE HERO. It is hidden
between cells A19 and V29. To find it, you might have to delete,
insert, move, change the format, change column-widths, or use any
other available SPREADSHEET command. Feel free to explore. Try anything
and everything; this is your time to experiment. To quit, press /QY.
    After you have found our HERO'S NAME, press ALT-A to bring up the
Answer Menu. Select his name from the array of possible answers by using
the right and left arrow keys to select Answer1-7 and then press return.
Remember ALT-H for a Hint/Help Menu and ALT-B for the fake spreadsheet.

HELP LEVEL THREE INSTRUCTIONS   (Press Alt-P to print)

Lesson:The purpose of this template is to get you familiar with moving
around the spreadsheet and changing column widths. All those "X"s will
become closer together and spell out a name if you can make the columns
less wide. To change each column:Place the cursor in each column, press
/WCS2, press Return. To change all the columns at once, press /WGC
move the arrow left until the letters come together, press return.

To read more about changing column widths:

                              PRESS THE HOME KEY TO RETURN
Press F1;Select:Help Index;Column Width,Read the screen,PressESC

                    TO READ HOW TO SOLVE THE PUZZLE WITH HAL, PAGE RIGHT
Press:F1;F5;58;RTN;(Read what is says about <F4>.);ESC
Press F1, Select Menus, Press RTN 20 times.(Read about column widths)ESCOr read ch 2.5.4 in the manual.~{UP}
Press Esc, Or read Chapter 2.5.4 in the manual.
Press F1,Read screens 5,6,7,8 & 21.
Press F1,F5,33,Return. Read about Column Widths. Press Esc to return.

Press F1,Select Menu Topics,Column,Set Global and read the screen.
Press F1,Select: Index, Command Set, Worksheet Menu, Global, Column-width.

Press F1,Select Menu Commands,Style,Column Width.
Press F1,Select:/Worksheet,Column. Read the screen.

HAL INSTRUCTION SCREEN

The HAL command to solve this puzzle would be "Shrink col A to W to 2"
You could start however with "Shrink Col A to W by 2" and then after
seeing the results, use the HAL command "Redo" until the name appears.
If you were to say "Make all columns less wide", it would make an
individual column width change to all 256 columns. This would take
some time.

PRESS THE HOME KEY TO RETURN
/CS2, press Return. To change all the columns at once, press /DFW2
/SC2, press Return. To change all the columns at once, use /SBS move
the arrow to cover the range of columns and press return. Then move the
arrow left until the letters come together.
