Welcome to Chapter 10. In it we'll examine some of the power	0
of the menu-driven data search capabilities. With this menu,	0
you can retrieve almost any information or fragment of data from	0
any record. You can blast through 1,000,000 records and select out	0
8 consecutive records and display them to the screen in less than	0
10 seconds! You can retrieve any word that you entered into the	0
Comments field, along with the record in which that word occurred.	0
If you enter a fragment of a company name or a fragment of a word on	0
which you wish to select out records, the program will find them for you!	0

Here is the Data Search Menu. Option 1 will blast through your indexes

and select out any record from the Master File by 1st, 2nd or 3rd ID.

Enter a '1'.
