

# Megan's Matching Game

Megan's Matching Game is a game for small children that allows them to discover how to use a computer; and especially the mouse. The game itself is fairly simple. A set of rectangles is displayed on the screen. Hidden behind each rectangle is an object consisting of either a number, letter, color, shape or picture. The child's challenge is to reveal matching pairs of these objects by clicking on them with the mouse. When all of the matching pairs a sound is played to reward their success.

## Game Menu

The Game Menu is used to control the behavior of the matching game.

- |                          |   |
|--------------------------|---|
| <b>Sound Setup</b>       | Configures the sound and beep options.  |
| <b>Automatic Restart</b> | When this option is active, Megan's Match Game will start a new game automatically after the completion of the previous game. |
| <b>New Game</b>          | This option forces the start of a brand new game.   |
| <b>Exit</b>              | Quits Megan's Match Game and returns to Windows.  |

## Pictures Menu

|                 |   |
|-----------------|---|
| <b>Colors</b>   | Changes the matching subject to a variation of colors.                  |
| <b>Shapes</b>   | Changes the matching subject to a variation of shapes.                  |
| <b>Pictures</b> | Changes the matching subject to a variation of pictures.                |
| <b>Letters</b>  | Changes the matching subject to a variation of capital letters.         |
| <b>Numbers</b>  | Changes the matching subject to a variation of numbers between 1 and 10 |

## Difficulty Menu

This menu is used to control the number of matching squares that need to be matched in the game.

**Novice**                      Presents a 3 \* 2 matrix.

**Advanced**                    Presents a 4 \* 3 matrix.

**Expert**                        Presents a 5 \* 4 matrix.

## Help Menu

- Help Index** Invokes the Microsoft Help System and displays the help file for Megan's Matching Game.
- Hint** Shows the user where a pair of matching squares reside. If one square is already selected **HINT** will identify the matching square.
- About** Presents the About Box for Megan's Matching Game. This is also a method to view the registration information.

## Registration Information
