RAIDER:

    The level codes are "SHOT", "DYKE", "HIGH", "LINK", "PEAR", "KILN",
    and "BAND".

RAILROAD TYCOON:

    Hold down the 'SHIFT' key and 'Y' key for lots of extra money.

    Hold down the 'SHIFT' key and hold down the '4' key to produce a
    dollar sign.  You'll immediately inherit lots of money. Apparently

*RAINBOW ISLANDS:

    Collecting all of the gems in the correct order of color (from left
    to right on the gem counter - RED, ORANGE, YELLOW, GREEN, LIGHT
    BLUE, DARK BLUE, and MAUVE) not only awards you the life and Bonus
    Gem, it also grants you access to a magical secret room.  When you
    reach the end of the level, a silver door appears.  You don't have
    to fight the Boss.

    On the fifth island you'll find a box in the secret room which you
    should collect.  There's also a gate with a '7' on it, leading to
    island 7.

    Even more useful is how to create any color gem.  The screen is
    split into several invisible vertical stripes of color.  When a gem
    falls, its color is determined by the 'color' of the area into which
    it fell.  Now all you have to do is guage ca refully where the dead
    enemy will fall to create the gem color of your choice.

    Type one of the following on the title screen, while the rainbow is
    cycling through colors:

        "BLRBJSBJ"_____Permanent fast shoes.
        "RJSBJSBR"_____Permanent double rainbows.
        "SSSLLRRS"_____Permanent fast rainbows.
        "BJBJBJRS"_____Hint a.
        "LJLSLBLS"_____Hint b.
        "LBSJRLJL"_____Continue after island five.
        "RRLLBBJS"_____All hidden food becomes money bags.
        "RRRRSBSJ"_____Does both of the previous two.

RALLY CHAMPIONSHIPS: (Michael Robinson)

    Find a car you want, but cant afford.  Now, leave the game.  Find
    the name of the car you want and .txt, so if you wanted an Escort,
    you would find Escort.txt.  Now use a text editor (I use TXED) and
    find a number (at the beginning).  It should look something like
    00000012345.  Now, replace the places where the 12345 # is and put
    0s in there place.  Now just leave a trailing 1.  Now the car will
    cost all of $10.  This is not only a way to get the car you want,
    but makes it cheaper to just buy a new car each time instead of
    refueling/fixing dammage.

------------------------------------------------------------------------
```

```
------------------------------------------------------------------------

RALLY CROSS CHALLENGE:

    On the fifth track, drive around until you reach the wooden level
    crossing.  Turn the car 90 degrees and drive down the track at full
    speed, until you reach the end.  The race will end giving you 28
    race points.  When the game starts, follow the railroad tracks and
    the screen will go blank.  Now you will find yourself with 24
    tokens.
