Chapter 1

Sweet Cheater Y

1.1 1081

*YO! JOE:

During play, type "WELTRAUMKAKALAKEN" for all the weapons and to activate the following keys:

']' _____ Add lives.
'/' _____ Subtract lives.
'Y' _____ Advances levels.
'SPACE' _____ Transports you to the end of the flying level.
'S' _____ Press repeatedly while paused for slow motion.

*YOGI BEAR'S BIG CLEAN UP (HiTec): (K. Krellwitz)

On the screen right after the title screen, the one with the animation, type "LETS LOOK AT WHAT YOU COULD HAVE WON". Then type "SUPER SMASHING GREAT". Now press 'P' to unpause the game and press the joystick button to start the game. This will give you infinite energy and will enable the following keys:

'F1-F5' _____ Skip to corresponding level.
'1'-'8' _____ Select object.
'TAB' _____ Open exits.

On the same screen type "FRITH MODE". I'm not sure what this does as of yet.

1.3 1083

*YOLLANDA: (Keith Krellwitz)

On the high score screen, type "SKID ROW". I'm not sure this does anything other than put {18 and life} as your name on the high score table.

At any time, type "QUIDITY" and use the following keys:

'SPACE' _____ Skip levels.
'HELP' _____ Toggle infinite lives.
'F4' _____ NTSC video mode.
'F5' _____ PAL video mode.

If the game ends or you reset the game by pressing 'F1' you will have to enter the code again.

1.4 1084

YOSEMITE SAM:

Enter your name as "BUGS". This gives infinite energy, press 'F1' to go to a sprite editor (there are some already on the disk).
