NoExitDemos

1.1 RebootTool

```
                    Quick reboot recovery facility
```

 Here is a list of all demos that have no exit, ie that force you to reboot.
 Every time you start a demo from this list, everything above that demo
 will have been removed from the list next time you start 'BootTool'. This
 helps you keep track which ones you've seen.

 Looking at the demos is especially convenient if you drag the BootTool
 to you WBStartup drawer. Then you'll be presented with a the list of unseen
 demos every time you boot. Note that clicking a demo name here starts
 the demo immediately. Don't use anything but the RAM: disk as your
 extraction path; the demos might take over the system before the write
 is finished.

 These are the best demos that have no exit:

```
BosniskMetall.lha   demo/aga     573K   4 Winning demo at Hackerence XI in Sweden.
