

## Sheet1

The following is the "chuckle" macro. Evoke it by moving the cursor to an open spot and typing Alt-c.

```
'Hoho{down}'hehehe{down}'Oh My!{down}'ha!{right}'hohohe{right}{down}~
```

The following macro is called "laugh" and it uses "chuckle" as a subroutine. All programming is hierarchical by nature. You can evoke "laugh" by typing Alt-l.

```
{right}{chuckle}{left}'giggle{down}{chuckle}'{up}{up}{up}'aahhhh...~
```

Your First Macro
