                    Yawgmoth Demon

                    Ydwen Efreet
```

1.2   Yawgmoth Demon

```
Yawgmoth Demon
```

  As errata, it should read "Flying, first strike. Sacrifice an artifact
    during upkeep or tap Yawgmoth Demon and Yawgmoth Demon deals 2 damage to
    you." [Encyclopedia Page 69]

  The sacrificing of an artifact is not mandatory. You can choose not to
    sacrifice an artifact but will pay the consequences. [Aahz 11/02/94]

1.3   Ydwen Efreet

```
Ydwen Efreet
```

  As errata, it should read "If you attempt to assign Ydwen Efreet to block a
    creature, choose an opponent and flip a coin first; that opponent calls
    heads or tails..." [Encyclopedia Page 128]

  Any effects that trigger when it blocks (such as Venom) will not trigger if
    the block fails to happen. If there was a cost to declare it as a blocker

and the declaration fails, you do not get the cost back. If there was a
limitation imposed when you declared it as a blocker (as with Caverns of
Despair) you do not get to go back and redo things after the block fails.
