This is a computer port of the board game pin solitaire, the idea of the game is to remove all the pegs and end with the last peg in the center.

To remove a peg click on the piece that is going to take the piece and then click on the adjacent empty square to jump and take the peg.

### 1.3 Pin/Controls

Pin

The controls are as follows:

Use the left mouse button to select pegs and take pegs.

If you select a peg and then select the same peg again, all the pegs which can be removed in that round will be turned blue.
