How Old are Ya'

Installation

Files Included:

- **AGE.EXE**   **The Main Program File.**
- **AGE.HLP**   **The Program's Help File.**
- **INSTALL.WRI**   **This File.**
- **REGISTER.WRI**   **Registration Form.**
- **MSAFINX.DLL**   **Visual Basic Library File.**
- **MSMASKED.VBX**   **Visual Basic Control File.**

To install your Program:

1. Be certain the Runtime Library, **VBRUN300.DLL**, is installed in your Window's System Subdirectory or in another directory that is in your DOS Path.[1]

2. Copy **MSAFINX.DLL** and **MSMASKED.VBX** to your Window's System Subdirectory or into another directory that is in your DOS Path.

3. Select a Working Directory for your program and place **AGE.EXE, AGE.HLP, REGISTER.WRI** and **INSTALL.WRI** into this directory.

4. In order to use the Program's Help File, the Windows File, WINHELP.EXE, must be located in a directory that is in your DOS Path. This file is located by default in your Windows Directory.

If you have problems installing your program:
