*For* me, winter has always been a time for reflection and new beginnings. I love the quiet of winter—the stillness, the peace and beauty of a frozen landscape. None more so than this winter in my new home, Colorado, where the snow-capped Rockies loom majestically over the Front Range. In their shadow, I have picked up the pages of a new life and job as editor of

*Interweave Knits*. It is my honor to take over the stewardship of this great publication, which represents the best of heritage knitting, education, design, and technical excellence.

In this time of reflection, I want to thank those who have come before me—all the women who have pioneered this magazine to new and progressive heights. Most of all, I thank Lisa Shroyer, my predecessor, my mentor, and my steadfast supporter. Without her encouragement over the years and the weird mind-meld we seem to share, I don't know if I would be a few offices over from her today.

For those of you who are not familiar with my background, I worked for the past eight years at the Cornwall Yarn Shop in Cornwall, New York. There, owner Gail Parrinello and I built a community founded on heritage knitting. We searched for, found, and occasionally had to import traditional wool and fibers for the true stuff of knitting. In weekend workshops, we featured designers who continue to build on the collective knitting traditions of our community. It was through the pages of *Knits* and my love of heritage knitting that I discovered myself as a knitter. I am a modern heritage knitter, reveling in the twisted stitches, colorwork, motifs, cables, techniques, and philosophies of the past, while experimenting with the old silhouettes for a new look and feel.

I've joked around the Interweave office that *Knits* Winter has been my “training-wheels” issue. I took over the publishing process at a halfway point and dove into photography, articles, and fibers for what I love the most—heritage knits. There is no better time than against the starkness of winter for a knitter to reflect on the past by finding pleasure in cabled Arans, the tight textures of ganseys, and the intricate patterning of traditional Fair Isle. In this issue, we've taken a closer look at where our fibers originate (Where It Comes From, page 8), how colors come together (Beyond the Basics, page 66), and who deserves our recognition and celebration for contributing so much to the fiber community over the years (Ravelings, page 96).

I have said that it is an honor to take over *Knits*, but even more important is my hope to in some way inspire every knitter to read these pages. *Knits* has always been “my” magazine—it was the first magazine I picked up as novice knitter and is the magazine I've turned to ever since for inspiration. As editor (and a reader), I hope to offer that experience to all of you, while reflecting what you want to see and will find exciting to knit. I am thrilled to be on this journey with you. Let's get started . . .

1

Learn the ins and outs of dyeing fiber naturally with **Kristine Vejar's** brand-new book, *The Modern Natural Dyer: A Comprehensive Guide to Dyeing Silk, Wool, Linen, and Cotton at Home* (Abrams, 2015). Also included in this visually stunning book are dyeing and pattern directions for modern knitting and sewing projects. [www.averbforkeepingwarm.com](http://www.averbforkeepingwarm.com)

2

**Halcyon Yarn z Kits** are perfect for someone trying out dyeing for the first time. Choose from the Indigo Starter or Botanical Natural Dye Kits, which include the materials needed as well as instructions to create dyes in your own kitchen. Any other necessary tools, such as jars, spoons, kettles, and towels, are items you can find easily in your own home. (Bowl not included.) [www.halcyonyarn.com](http://www.halcyonyarn.com)

3

4

**Ashland Bay** offers ecru yarn skeins in a range of fiber contents and weights that are destined to be hand-dyed. This particular yarn, **Klamath Superwash**, is a 100% superwash merino wool yarn with an impressive put-up of 850 yards [777 meters] and nearing 9 ounces [250 grams]. Peruse the plethora of hand-dyeing yarn options at [www.ashlandbay.com](http://www.ashlandbay.com).

4

In the brand-new comprehensive *Interweave* video workshop **Kitchen Dyeing: Dye Your Own Yarn with Everyday Ingredients**, knitting instructor and yarn expert Tanis Gray guides you through the process of creating beautiful naturally dyed yarn in your own kitchen. Tanis walks you through the materials, set-up, and basic safety precautions, then through the steps that will help you produce one-of-a-kind colorways in your own home. Order your DVD or download the video at [www.bit.ly/KitchenDyeing](http://www.bit.ly/KitchenDyeing).

5

In this excellent two-DVD bundle, which includes **Natural Dyeing** and **Overdyeing with Natural Dyes**, master dyer Dagmar Klos teaches you the secrets of dyeing your fibers, yarns, and textiles with nature's perfect palette. You'll also learn how to create a full range of hues and tones using the process of overdyeing. [www.bit.ly/NaturalDyeing](http://www.bit.ly/NaturalDyeing)

# Color Knitting

1 With Laura Bryant's DVD *A Knitter's Guide to Color*, you can learn all about colors, including their relationships and interactions, how to use them to design your knitwear for greater visual impact, and so much more. The DVD also comes with a free pattern for the shawl featured in the video. [www.bit.ly/BryantColor](http://www.bit.ly/BryantColor)

2 *The Color Grid* from The Kangaroo Dyer, Gail Callahan, is an inexpensive, easy, and fun way to select colors for any type of project. Used with the included template, the color grid lets you experiment with many options that will help make your project cohesive, as well as help you find the best color for a "spark" of contrast. [www.colorgrid.net](http://www.colorgrid.net)

3 Learn how to knit with color in *Simple Color Knitting* by Erika Knight (St. Martin's Press, 2015). This brand-new book features twenty projects that include Fair Isle, intarsia, and simple stripe knitting. This workshop-style book is useful for new color knitters as well as those looking to hone their color-knitting skills. [www.erikaknight.co.uk](http://www.erikaknight.co.uk)

# Naturally Dyed Yarns

1 All of the yarns from *A Verb for Keeping Warm* are dyed with sustainably harvested natural dyeing extracts. Consequently, the colorways of all the yarn lines create a beautifully natural color palette. The yarn shown here, *Floating*, is a scrumptious fingering-weight blend of alpaca, cashmere, and silk. [www.averbforkeepingwarm.com](http://www.averbforkeepingwarm.com)

2 Available in an array of naturally dyed colorways, *Swans Island Natural Colors Collection* skeins are composed of 100% organic merino wool. This special yarn is subtly variegated, and each skein is unique, which comes from letting Mother Nature cast her spell. Find more organic yarns on page 12. ## Historic Jagger Brothers Mill & JaggerSpun

BY MEGHAN BABIN

One sunny day in August, my friends and I were lucky to tour Jagger Brothers Mill and JaggerSpun in Springvale, Maine. Jagger Brothers Sales Manager Scott Grey, who has been with the company since 1987, guided us around the mill while he expounded on textile manufacturing, fiber, spinning, and the mill's history. It all started in 1884, when Uriah B. Jagger, a yarn spinner, moved his family from Bradford, England to Sanford, Maine. Jagger Brothers was founded in 1898 by Uriah's two sons, Samuel and Fred, and in 1956, after several locations, Samuel's sons, Allan, Winston, and Robert Jagger, moved the company to Springvale, Maine. More than one hundred years after it was founded, the worsted-wool spinning mill still resides in this same location on Water Street.

Our tour began with the most important element: the raw fibers sourced from the United States, Australia, New Zealand, South America, South Africa, Europe, Japan, and Turkey. They arrive at the mill's warehouse in 500 to 1,500-pound [226.8 to 680.4-kilogram] bales and are then blended in different combinations of fiber and color. Once the fibers have been drawn, drafted, and made into roving, they are pulled from massive bobbins and passed through a draft zone, where twist is introduced to the fibers to make a single-ply yarn. The yarn is then electronically monitored for imperfections; when an imperfection is detected, the machines introduce a new section of yarn, splicing, drafting, and twisting it into the existing fiber to create a knotless ply. The yarn is then "plied"; in mill-speak, it's called twisting. Depending on the yarn, two, three, or four single plies are combined to make a multi-ply—a more durable, balanced yarn.

After the cones are put through the steamer and either waxed or unwaxed to set the fibers, the yarn is finally ready for consumers.

Jagger Brothers produces much more than small-production yarn for knitters and fiber artists. In fact, the greater part of the yarn Jagger Brothers produces is for commercial use. The mill produces a variety of yarns used for commercial upholstery, medical bandages, wool fire blankets, broadloom carpets, buffing pads, and commercially produced knitted apparel. About thirty years ago, JaggerSpun was born from Jagger Brothers to add small production to the equation.

JaggerSpun was founded in the late 1980s by David Jagger, the current owner of Jagger Brothers, when he saw a growing market for small production. Chuck Desmond, manager of JaggerSpun, came on board twenty-seven years ago, and she has led the team at JaggerSpun ever since.

JaggerSpun has recently expanded its put-up from solely one-pound [0.45-kilogram] cones to include skeins, and the company is working with yarn shops across the country to reach the larger fiber community.

### Here's a small selection of their yarn lines:

- **New for fall 2015:** MOUSAM FALLS, a worsted-weight superwash wool in solids and heathers available in 100-gram [3.5-ounce] skeins and 1-pound [0.45-kilogram] cones.
- **New in early 2016:** KOKADJO, a fingering-weight 90% superwash wool, 10% silk.
- **New in early 2016:** PRESQUE ISLE, a bulky, superwash, U.S. wool.
- **THE GREEN LINE:** a 100% certified organic wool (see Yarn Review, p. 12).
- **ZEPHYR WOOL-SILK:** available in lace and DK weight, 50% fine merino, 50% tussah silk.

See all the lines available as well as a complete list of retail locations at [www.jaggeryarn.com/index](http://www.jaggeryarn.com/index).

# Eco-Friendly Fibers

BY HANNAH BAKER

We all want to do our part to lessen our impact on the environment. Choosing yarns made of organic, natural wools and other fibers is one way for knitters to do that. These yarns do not utilize any pesticides or chemicals throughout the life of production, all the way from what the sheep eat or how a plant is grown to the material with which the yarn is dyed. Here, we review just a handful of high-quality, certified organic yarns of today's market. For more information and ideas about earth-friendly knitting, find *Knitting Green* by Ann Budd (Interweave, 2010) at [www.bit.ly/KnittingGreen](http://www.bit.ly/KnittingGreen).

## 1 DEBBIE BLISS ECO BABY

**Content:** 100% organic cotton **Put-Up:** 137 yd [125 m]/1¾ oz [50 g] **Construction:** multi-ply **Care:** Machine wash cold, dry flat **Recommended Gauge:** 25 sts = 4" [10 cm] on size 3 [3.25 mm] needles

Sportweight Eco Baby is made from organic, fair-trade cotton. The high-twist yarn comes in more than twenty-five soft colors for baby. Distributed by LoveKnitting.

## 2 WOOLGANIC HAND DYED 8 PLY DK ORGANIC WOOL KNITTERS YARN

**Content:** 100% certified organic Australian merino fleece wool **Put-Up:** 113 yd [104 m]/1¾ oz [50 g] **Construction:** multi-ply **Care:** Handwash in wool wash, dry flat in shade **Recommended Gauge:** 22 sts = 4" [10 cm] on size 6 [4 mm] needles

WOOLganic was created when the founder was unable to find organic wool yarn in her home country, Australia. WOOLganic is spun in New Zealand with certified organic merino wool from Australia and dyed with metal-free dyes. The Hand Dyed Semi Solid collection features strong, vibrant colorways that enliven knitting projects. [www.australianorganicwool.net.au](http://www.australianorganicwool.net.au)

## 3 QUINCE & CO. SPARROW

**Content:** 100% organic linen **Put-Up:** 168 yd [155 m]/1¾ oz [50 g] **Construction:** multi-ply **Care:** Machine wash cold, dry flat **Recommended Gauge:** 24 sts = 4" [10 cm] on size 3 [3.25 mm] needles

Sparrow is spun in Italy with organic linen fiber that comes from Belgium. It lends itself well to lace and has beautiful drape after blocking. The airy colorways are all fine choices for soft, feminine garments. [www.quinceandco.com](http://www.quinceandco.com)

#### 4 THE GREEN LINE FROM JAGGERSPUN

**Content:** 100% organic wool **Put-Up:** 166 yd [151 m]/1¾ oz [50 g]  
**Construction:** 3-ply **Care:** Dry clean or handwash in cool water, dry flat  
**Recommended Gauge:** 24 sts = 4" [10 cm] on size 3 [3.25 mm] needles

The Green Line is spun at the Jagger Brothers mill in Springvale, Maine, and is organically dyed in their New England dye house. The sportweight yarn is available in thirty-six beautiful shades. Read more about JaggerSpun on page 8. [www.jaggeryarn.com](http://www.jaggeryarn.com)

#### 5 KPC YARNS GOSSYP 4 PLY

**Content:** 100% organic cotton **Put-Up:** 197 yd [180 m]/1¾ oz [50 g]  
**Construction:** 4-ply **Care:** Machine wash cold, dry flat in shade **Recommended Gauge:** 28 sts = 4" [10 cm] on size 3 [3.25 mm] needles

Gossyp, an organic yarn from Knit Purl Crochet Yarns, comes in three different weights—4 ply, DK, and chunky. Enjoy the abundance of options with sixty fun colorways in the two latter weights and forty colorways in the chunky line. This yarn knits up into a soft, comfortable fabric with that drapery quality knitters crave. [www.kpcyarn.com](http://www.kpcyarn.com)

#### 6 O-WOOL CLASSIC WORSTED

**Contents:** 100% certified organic merino wool  
**Put-Up:** 99 yd [90 m]/1¾ oz [50 g] **Construction:** 4-ply  
**Care:** Handwash in cold water, dry flat **Recommended Gauge:** 16–18 sts = 4" [10 cm] on size 8–9 [5–5.5 mm] needles

O-Wool specializes in crafting environmentally responsible, locally created yarns in Philadelphia and Boston. Processed according to organic standards, Classic Worsted is made of soft, totally organic merino wool. This durable yarn is easy to work with and knits up quickly on the needles. The colorways, ranging from pale to bold, add to the all-natural quality of the yarn. [www.o-wool.com](http://www.o-wool.com)

{ The star-stitch pattern used to create these swatches can be found in the Badge Cowl pattern by Tanis Gray, *Interweave Knits Gifts* 2015. [www.bit.ly/KnitsGifts2015](http://www.bit.ly/KnitsGifts2015) }

A woman with blonde hair, seen from behind, is wearing a light-colored, long-sleeved cable-knit sweater and a wide-brimmed brown hat. She is standing next to a rustic wooden fence. The background is a soft-focus outdoor setting with greenery. The text is overlaid on the left side of the image.

# A *light* In *winter*

*Cables and textures create heritage knits that will keep you warm through short days and long nights by the fireside.*

The *Inverness Sweater*, a classic Aran, has a becoming A-line shape. Twisted rib stitching introduces twisted long cables that are divided by ray-of-honey and moss-stitch side panels. **Linda Marveng. PAGE 26.**

The designer set out to create a rugged garment as easy to knit as it is to wear. The ***Coldfield Pullover*** features top-down, compound raglan construction with tribal motif armbands, cuffs, and hip details over garter rib stitch. ***Meghan Babin***. PAGE 30. YARN Harrisville Designs flyWHEEL

Inspired by the traditional Aran, the *Glasgow Sweater* updates an old favorite using bright colors and bulky cables. **Andrea Sanchez.** PAGE 34. **YARN** HiKoo Kenzington, distributed by Skacel

The *Worthington Gansey* features crisp, textured stitch motifs and gusset shaping to give a new look to the classic gansey sweater.

*Courtney Spainhower*. PAGE 36.

**YARN** Spud and Chloë Fine, distributed by Blue Sky Alpacas

Lace, cables, and luxurious fibers come together in the *MacGowan Pullover*, which updates the traditional Aran. *Quenna Lee*.

The *Shiloh Sweater* blends comfort and tradition; the design features unusual cables and a shawl collar to shield the wearer from winter winds. *Cassie Castillo*. PAGE 48. YARN Patons Classic Wool Worsted, distributed by Spinrite

The *Lowe Mittens*, worked in a tight gauge reminiscent of traditional Scottish ganseys, feature a chevron motif cuff that fades to a simple brocade stripe.

*Lisa Jacobs*. PAGE 50.

**YARN** Green Mountain Spinnery  
Weekend Wool

Flowing, reversible cables, rich color, and striking textures are combined in the *Rivers Stole*, a versatile garment made for deep winter wear. *Vicki Square*.

Featuring the best of two cultures, the *Tulle Mittens* combine Norwegian mitten construction with Austrian twisted stitches. **Janet Milne.**  
**PAGE 52. YARN** Dale Garn Falk, distributed by Mango Moon

Inspired by the peasant knitting of the Enns Valley, Austria, these traditional *Oxford Stockings* showcase a wealth of twisted cable stitches in vertical bands along the leg. **Lisa Jacobs.**  
**PAGE 57. YARN** Schachenmayr Regia 4-ply, distributed by Westminster Fibers

Top-down construction and a fitted silhouette come together in the ***Keeley Sweater*** for a new take on the classic fisherman sweater. ***Kephren Pritchett***.  
**PAGE 58. YARN** Dale Garn Heilo, distributed by Mango Moon

In the *Walthall Sweater*, the designer found a way to incorporate an all-over cable pattern into a round-yoke sweater. Walthall's cables radiate from the yoke and flow smoothly into the body. **Rachel Maurer.** PAGE 62. **YARN** Lorna's Laces Masham Worsted

### NOTES

- The body of this pullover is worked in the round to the underarm, then the front and back are worked separately back and forth. The sleeves are worked in the round from the bottom up, with the sleeve cap worked flat. Decreases are worked on each side of the body to create an A-line shape.
- The charts are worked both in rounds and back and forth in rows. When working in rounds, work every chart row as a right-side row.
- During shaping, if there are not enough stitches to work a complete cable crossing, work the stitches of the partial cable as they appear.

### NOTES

- The body of this pullover is worked in the round to the underarm, then the front and back are worked separately back and forth. Stitches for the sleeves are picked up around the armhole and the sleeves are worked in the round from the top down.
- For the lower body, use the two contrasting markers to mark the beginning of the round and the opposite side.
- The cable and large tile charts are worked both in rounds and back and forth in rows. When working in the round, work every chart row as a right-side row.
- During shaping, if there are not enough stitches to work a complete 4-stitch cable, work the partial cable stitches in stockinette.

### NOTES

- The body of this pullover is worked in the round to the underarm, then the front and back are worked separately back and forth. After the shoulders are seamed, sleeve stitches are picked up and the sleeve cap is shaped with short rows. The sleeve is then worked in the round from the top down.
- The charts are worked both in rounds and back and forth in rows. When working in rounds, work every chart row as a right-side row.

### NOTES

- The body of this pullover is worked in the round to the underarm, then the front and back are worked separately back and forth. The sleeves are worked in the round, with the sleeve cap worked back and forth.
- The Cable chart is worked both in rounds and back and forth in rows. When working in rounds, work every chart row as a right-side row.
- When working the upper body and upper sleeves back and forth in rows, maintain a one-stitch stockinette selvedge at each end for easy seaming later on.
- When increasing and decreasing in pattern, if there aren't enough stitches to work a charted cable, work a 1/1 cable instead.
- The schematic shows the sleeve cuff unfolded; the actual length when folded and worn is 2½" shorter.

## NOTES

- The left shoulder strap is worked back and forth and shaped with short-rows, then stitches are cast on for the front neck. The right shoulder strap is then worked with the opposite shaping and stitches are cast on for the back neck. The back begins by working across the provisional cast-on stitches of the left shoulder strap, the back neck cast-on, and the live stitches of the right shoulder strap, then is worked to the underarm. The front is begun by working across the cast-on stitches of the right shoulder strap, the front neck cast-on, and the live stitches of the left shoulder strap, then is worked to the underarm. Stitches for the side gussets are cast on, the front and back are joined, and the lower body is worked in the round to the lower edge. Stitches for the sleeves are picked up around the armhole and the sleeves are worked from the top down in the round.

## COLORS WORK: 9 HINTS FOR SELECTING A COLOR PALETTE

BY NANCY SHROYER

*What if you loved lots of color and wanted to work with it in your knitting and other fiber arts, but you had no inborn sense of color or formal art training? That was my situation. I love two-color stranded work and was happy to knit Alice Starmore and Ann Feitelson's patterns until I could no longer get the yarns or colors called for in their books. And I wanted to start trying my hand at designing my own patterns. I could do the planning, math, and schematics, but choosing several colors that I felt confident went together well was my stumbling block. Always thinking about tools to help knitters, I felt sure there was a tool to help with color selection. There is! The color wheel.*

We all learned about the color wheel back in middle school as part of art class, but it had no meaning for me then, and I was probably dreaming about the boy two rows up instead of paying attention. So I bought a color wheel and borrowed a few books on the topic from the library. The books were interesting, but they were written by artists about painting. Paint can be changed by adding colors; yarn cannot. So I went off on my own color adventure. I began by taking two of the "harmonies" (a harmony is a pleasing relationship between colors) shown on the color wheel and the yarn I had on hand, and I started making swatches. I wanted to see if I could start making some sense

of how using a color wheel could help color-impaired knitters like me.

### Here are my discoveries:

1. The color wheel is a tool, and like any new tool, you need to learn how it's set up and how to use the harmonies to your advantage. Most color wheels on the market come with simple instructions. Begin by familiarizing yourself with the terminology. A color wheel is the color spectrum bent into a circle. It shows the relationships between colors. Color combinations that are balanced and pleasing to the eye are the harmonies I mentioned. To get started using a color wheel for knitting or other fiber

**Figure 1**  
Triad — three colors an equal distance apart

**Figure 2**  
Split Complementary — a color and the two colors that are on each side of its complement

crafts, choose just one color, then build a palette that will coordinate with that color by adding colors on the wheel according to the harmony you've chosen.

2. For my design purposes, I found that I needed to use only two of the harmonies on the color wheel—the triad and the split complementary. The triad starts with three colors that are equidistant on the color wheel. It's represented by the three darkened triangles on the color wheel shown (Figure 1). Using these three colors makes a fabric with high contrast, because the colors are so far apart on the wheel. The split-complementary

Figure 3

Three colors of high contrast with equal proportion

Figure 4

The same three colors with 50% red, 40% blue, and 10% yellow

Figure 5

The same three colors worked in a colorwork pattern

Figure 6

Figure 7

Figure 8

harmony has two colors that are close to each other on the color wheel, but the third color is opposite. It's represented by the three darkened triangles (Figure 2, previous page). Because the main color and the second color are so close to each other, they create a fabric with subtle contrast; the third color, from across the wheel, adds a great pop of contrasting color. Both harmonies not only work very well for two-color stranded work, but also for weaving and even for choosing flower color combinations for enlivening your garden.

3. If you use more than one color, an odd number of colors works best (for example, 3, 5, 7, 9, and so on). See point 5.
4. Proportion is important. If you want your project to be a certain overall color, 50 percent of the chosen yarn should be in that color and 40 percent should be in the second position on the color wheel. Just 10 percent should come from the third position, which adds the contrast (Figures 3, 4, and 5).

Fabric made from Figure 3 would be boring; Figure 4 is much more interesting. Even though it has only two lines of yellow, they're apparent.

5. To increase to five colors, rather than adding different colors, change the values of your current main and second colors (making them lighter or darker). Doing so gives the fabric more interest and maintains the 50/40/10 proportion (Figures 6 and 7).
6. When you work with stripes or intarsia the values of the colors are not as important, but two-color stranded work has a background and a foreground pattern. If there's not enough contrast in value between the background and foreground colors, the pattern won't be visible (Figure 8).

Figure 9

Figure 10

Figure 11

Figure 12

Figure 13

7. Unsurprisingly, neither black nor white is shown on the color wheel. I found that the best way to use either one is to build my palette first, then substitute black for one of the darkest colors or white for one of the lightest. Using black or white as a contrast color is sometimes all that is needed to achieve the effect you want. In two-color stranded work, either black or white can be used as foreground or background (Figures 9 and 10).

8. On the color wheel, brown appears in the orange, red-orange, and red boxes. When I'm building a palette, I first make my choices from the reds and oranges, then substitute a brown for one of them (Figure 11).

9. You can't get around the need to knit a swatch. Sometimes, even though the color choices are right, there isn't enough contrast in the value. And sometimes, the swatch reveals that a color simply looks better at a different place in the pattern or chart. Small adjustments can be made with duplicate stitch rather than reknitting (Figures 12 and 13).

#### BUILDING A PALETTE

If you want a fabric with high contrast, choose the triad harmony. If you want a more subtle blend of colors, choose to work with the split-complementary harmony. First, find a color that you like—just one. Match it to a color on the color wheel. Turn the top wheel until one of the points of the triad triangle or one of the short points of the split-complementary triangle is on the color box that best matches your yarn. Now, follow the color wheel to choose your other colors.

For three colors, the proportion would be 50 percent for your main color and 40 percent for the second color from a color on one of the other three points of the triad or from the short side of the split complement. Choose a contrast color for 10 percent from the third point on the triad or the long side of the split complement.

For five colors, add more color/interest by choosing another value for the main color and the second color. For seven colors, add two contrast colors. These colors will be adjacent to the main and second colors on the color wheel, going toward the first contrast color. On the triad, these two are complements of each other. And to go to nine, just add yet another value to the

main and second colors, so each will have a light, medium, and dark value.

There are many color theories, and I don't call my method a "theory." Rather, it's an approach that works well for me as I develop my own designs. If you would like more details and actual "recipes" for choosing colors with this method, I invite you to check out my book *How to Select Color Palettes for Knitting and other Fiber Arts*. It comes with its own color wheel.

### NOTES

- The body of this pullover is worked in the round to the underarm, then the

front and back are worked separately back and forth. Stitches for the sleeves are picked up around the armhole and worked in the round down to the cuffs.

- It may be necessary to go up in needle size to obtain gauge in colorwork sections.
- When shaping sleeves while working Chart B, work decreases in appropriate color according to chart.
- Slip stitches purlwise with yarn in back, except where indicated otherwise.

**Backward-Loop Cast-On**

\*Loop working yarn as shown and place it on needle backward (with right leg of loop in back of needle). Repeat from \*.

**Cable Cast-On**

If there are no established stitches, begin with a slipknot, knit one stitch in slipknot and slip this new stitch to left needle. \*Insert right needle between first two stitches on left needle (Figure 1). Wrap yarn as if to knit. Draw yarn through to complete stitch (Figure 2) and slip this new stitch to left needle as shown (Figure 3). Repeat from \*.

Figure 1

Figure 2

Figure 3

**Crochet Chain (Provisional) Cast-On**

With smooth, contrasting waste yarn and crochet hook, make a loose chain of about four stitches more than you need to cast on. Cut yarn and pull tail through last chain to secure. With needle, working yarn, and beginning two stitches from last chain worked, pick up and knit one stitch through the back loop of each chain (Figure 1) for desired number of stitches. Work the piece as desired, and when you're ready to use the cast-on stitches, pull out the crochet chain to expose the live stitches (Figure 2).

Figure 2

**German Short-Rows**

**Figure 1:** With yarn in front, sl 1 pwise from left needle to right needle. Pull yarn to back of work over needle until both legs of stitch in row below are on top of needle (as shown), creating a "double stitch" on both sides of needle.

Figure 1

**Figure 2:** When working the double-stitch on subsequent rows, work it as a single stitch.

Figure 2

**Jeny's Surprisingly Stretchy Bind-Off**

**STEP 1.** If the stitch to be bound off is a knit stitch, work a backward yo (bring yarn to the front over the needle) (Figure 1). Knit the next stitch, then insert left needle into yo and lift it over the knit stitch (Figure 2).

If the stitch to be bound off is a purl stitch, work a standard yo (Figure 3). Purl the next stitch, then insert left needle into yo and lift it over the purl stitch (Figure 4).

**STEP 2.** Rep Step 1 for the second stitch to be bound off. Insert left needle in second stitch from tip of right needle and lift it over the next stitch.

Rep Step 2 until all stitches have been bound off. As you get into the rhythm of this method, you may prefer to lift the yo and the previous stitch over the next stitch together in a single motion (Figure 5).

Figure 1

Figure 2

Figure 3

Figure 4

Figure 5

**Kitchener Stitch (St st Grafting)**

**Step 1:** Bring threaded needle through front stitch as if to purl and leave stitch on needle.

**Step 2:** Bring threaded needle through back stitch as if to knit and leave stitch on needle.

**Step 3:** Bring threaded needle through first front stitch as if to knit and slip this stitch off needle. Bring threaded needle through next front stitch as if to purl and leave stitch on needle.

**Step 4:** Bring threaded needle through first back stitch as if to purl (as illustrated), slip this stitch off, bring needle through next back stitch as if to knit, leave this stitch on needle.

Repeat Steps 3 and 4 until no stitches remain on needles.

**Make 1 (M1) Increases**

**Left Slant (M1L) and Standard M1**

With left needle tip, lift strand between needles from front to back (Figure 1). Knit lifted loop through the back (Figure 2).

**Right Slant (M1R)**

With left needle tip, lift strand between needles from back to front (Figure 1). Knit lifted loop through the front (Figure 2).

**Purl (M1P)**

For purl versions, work as above, purling lifted loop.

**Pom-Pom**

Cut two circles of cardboard, each 1/2" (1.3 cm) larger than desired finished pom-pom width. Cut a small circle out of the center and a small edge out of the side of each circle (Figure 1). Tie a strand of yarn between the circles, hold circles together and wrap with yarn—the more wraps, the thicker the pom-pom. Cut between the circles and knot the tie strand tightly (Figure 2). Place pom-pom between two smaller cardboard circles held together with a needle and trim the edges (Figure 3). This technique comes from *Nicky Epstein's Knitted Embellishments* (Interweave, 1999).

**Provisional Cast-On**

Place a loose slipknot on needle held in your right hand. Hold waste yarn next to slipknot and around left thumb; hold working yarn over left index finger. \*Bring needle forward under waste yarn, over working yarn, grab a loop of working yarn (Figure 1), then bring needle to the front, over both yarns, and grab a second loop (Figure 2). Repeat from \*. When you're ready to use the cast-on stitches, pick out waste yarn to expose live stitches.

**Short-Rows (Knit Side)**

Work to turning point, slip next stitch purlwise (Figure 1), bring the yarn to the front, then slip the same stitch back to the left needle (Figure 2), turn the work around and bring the yarn in position for the next stitch—one stitch has been wrapped, and the yarn is correctly positioned to work the next stitch. When you come to a wrapped stitch on a subsequent knit row, hide the wrap by working it together with the wrapped stitch as follows: insert right needle tip under the wrap from the front (Figure 3), then into the stitch on the needle, and work the stitch and its wrap together as a single stitch.

**Short-Rows (Purl Side)**

Work to the turning point, slip the next stitch purlwise to the right needle, bring the yarn to the back of the work (Figure 1), return the slipped stitch to the left needle, bring the yarn to the front between the needles (Figure 2), and turn the work so that the knit side is facing—one stitch has been wrapped, and the yarn is correctly positioned to knit the next stitch. To hide the wrap on a subsequent purl row, work to the wrapped stitch, use the tip of the right needle to pick up the wrap from the back, place it on the left needle (Figure 3), then purl it together with the wrapped stitch.

**Ssp (Single Decrease)**

Holding yarn in front, slip two stitches knitwise one at a time onto right needle (Figure 1). Slip them back onto left needle and purl the two stitches together through back loops (Figure 2).

**Three-Needle Bind-Off**

Place stitches to be joined onto two separate needles. Hold them with right sides of knitting facing together. Insert a third needle into first stitch on each of the other two needles and knit them together as one stitch. \*Knit next stitch on each needle the same way. Pass first stitch over second stitch. Repeat from \* until one stitch remains on third needle. Cut yarn and pull tail through last stitch.

# Casting Off *Morehouse Merino*

BY CLAIRE HOULIHAN

Years ago, when I was rediscovering the joy of knitting, I had the good fortune to stumble across In Sheep's Clothing, a yarn shop located in Rock City, a small hamlet outside the bucolic Hudson Valley town of Milan, New York.

The shop owner, Margrit Lohrer, together with her husband, Albrecht Pichler, own Morehouse Merino Farm, just down the road. To describe In Sheep's Clothing as just a yarn store would be a disservice. The shop offered a wonderful mix of colorful and natural merino yarns, sheepskins, felted insoles, pottery, and the most tantalizing knitting kits, all set off by architect Albrecht's beautifully designed space of bright light, warm wood, and birch trees. The shop was an outgrowth of the Merino sheep farm, originally purchased as a weekend getaway in 1977.

During the week, the couple lived and worked in New York City, where Margrit pursued a career in graphic arts. She and Albrecht started researching sheep to determine which breeds to raise on their farm. They concluded that the fine wool of the Merino breed was exactly what they wanted. In 1983, they purchased a small flock of four at a livestock show in Pennsylvania from an Ohio breeder. But it was not until Margrit and Albrecht attended an international sheep congress in Canada that they found what they were looking for—the finest Australian merino fleece. After acquiring two Merino rams from Australia, they began sheep farming in earnest, and in 1990, Margrit said goodbye to city life for good. Now, in 2015, Morehouse offers its soft merino wool in more than seventy colors and weights from bulky to laceweight.

Recently, she announced that after a five-and-a-half year battle with ovarian cancer, she has decided to sell Morehouse Merino Farm. And so, on a September day, I went to Morehouse to visit Margrit. Albrecht and their dogs Guinness and Pancho greeted me at the gate. We sat in Margrit's comfortable living room, filled with bright colors and antique furniture, and spoke about her favorite topics—knitting and yarn.

When I asked Margrit about matters related to knitters, knitting, sheep, yarn, and more, her answers were eloquent, so I offer them to you without my questions.

"Knitting is popular everywhere now . . . The pleasure of knitting is that it's quality time. If I have a dilemma, I can wonder, ponder, and search for the solution while I'm knitting. We gain so much in the process. That is the message I want to share, that we are a lucky bunch of people . . . show your knitting off to the world. I don't even like to call it a talent because that word scares people away. It's an ability.

"I had a shop in the house initially . . . At first, I didn't want to dye the yarn, but eventually we did. We did all our dyeing in our studio here. Now, our yarns are commercially dyed. They're spun in Pennsylvania, dyed in North Carolina, and shipped back to us in skeins.

"We gave the shop up to concentrate on the online store. We've had Morehouse online for a dozen years now. Although I miss the feedback of the shop, and the personal interaction, I do get messages from our loyal online customers. The time has arrived, though, where I have to admit I am no longer physically up to it. Realistically, I'm not able to con-

tinue. So Albrecht and I are looking for a buyer for Morehouse Merino, and we hope to find someone that will continue to take good care of all our customers."

This year at the New York State Sheep and Wool Festival, the Dutchess County Sheep and Wool Growers Association awarded Margrit their Lifetime Achievement Award for being so instrumental in popularizing the Merino breed in the United States. Our thanks to her for all she has contributed.

**CLAIRE HOULIHAN** is a member of the Dutchess County Sheep and Wool Growers Association and president of the Elmendorph Handspinners Guild. Her son, Terence, jokes that she'll be all set if she has to go back in time because of her two loves, spinning and skeet-shooting.

For more information about the sale of Morehouse Merino Farm, please contact Albrecht Pichler at [a.pichler@harthowerton.com](mailto:a.pichler@harthowerton.com).
