

CHILDREN'S

Advanced Subtraction is Fun!

Quiz program

Answer a series of subtraction problems and receive a Certificate of Achievement! The certificate prints out after you've answered all the questions correctly. You must start over after an incorrect answer.

- Colorful graphics
 - Random order questions
 - For elementary school kids
- (Application by John Evans)

Find the Missing Letter

ABC_EF

Practice spelling with this quiz-style game. Complete words with one missing letter. The program speaks the word when completed correctly.

- Three word lists
- Turn sound on and off
- Add you own words
- Help mode

(Application by David Bagno; Requires MacinTalk 1.5 or Speech Manager to hear speech)

First Lessons in Math 1.7

One plus one

Introduce younger kids to numbers and math concepts with this great program. Teaches and reinforces important math concepts with strong audio-visual aids. Children work with pictures and sounds. Kids count objects, including stars, pencils and more.

- Learn the quantitative values of numbers
- Learn how to count
- Pronounces numbers

(Application by David Bagno; Requires MacinTalk 1.5 or Speech Manager to hear speech)

Imagino 1.0

Image this

Stimulate your imagination with this entertaining storybook. The character Imagino gives tips on using your imagination — for fun! For example, Imagino talks about making a drum from a box and a tambourine out of two paper plates.

- Large, easy-to-read type
- Cute, clever ideas

(HyperCard Stack by Doug and Susan Anderson)

IQ Test

You is smart

Rate your intelligence level with this realistic IQ test. You enter your age and the program asks questions.

- Timed test
 - Detailed instructions and samples
 - Sixty questions
 - Result graph shows how you compare to others
- (Application by Chris Athanas)

KeyBoom!

Letter attack

Defend cities in this Missile Command-style game with an educational twist. Instead of shooting bombs, you shoot letters.

- Records high scores
 - Progressively difficult
 - Higher levels have word targets
 - Good graphics and funny sound effects
- (Application by Michel de Messieres)

Mr. Mind Game 1.1

Think hard

Can you guess color patterns in this Master Mind-style game? Start by dragging five of eight colored circles to the first row on the board. The computer tells you which, if any, colors are correct. You have 11 chances to get the colors in their places.

- Sound option
 - High score list
 - Play with color or black-and-white patterns
- (Application by K. W. Chan)

Ronnie Resort 2.2

Fun in the sun

Help Ronnie get from the hotel to the beach. It's not as easy as it sounds. He must cleverly use the objects that are scattered about the game board to help him solve the maze.

- Puzzles show how to use all the objects
 - Nonviolent, puzzle-type game
 - Use beach balls, inner tubes and magic umbrellas
 - Ten levels
- (Application by Soleau Software, Inc.)

FEATURE PROGRAM

Sentence Builder 1.3

Builder 1.3 Sentence

Make complete sentences by arranging scrambled words into their correct order.

Sentences range from two to eight words. Learn syntax, vocabulary, spelling and pronunciation as you play.

- Game format
- Logs and prints grade reports
- Computer speaks words of encouragement

(Application by David Bagno; Requires MacinTalk 1.5 or Speech Manager to hear speech)

SuperClipArt Sampler

Image collection

You'll love these black-and-white images of animals, dinosaurs, fun houses, music, school, science, transportation and vegetables. Print out individual sheets and color them, or copy individual graphics and insert them into reports and school papers. The stack also includes drawing tools for customizing the art.
