Requires Windows 3.1 and 122,123 bytes disk space after installation.

Description:

Christmas Clock for Windows is a clock for your Windows desktop depicting Santa in his sleigh on a snowy Christmas Eve. The time is displayed above the reindeer and also when the clock is minimized. How many shopping days are left before Christmas is also displayed. Clock can be displayed "always on top" or this option can be disabled, according to your preference. Requires VBRUN300.DLL (NOT INCLUDED).

FREEWARE

VBRUN300.DLL (NOT INCLUDED IN DOWNLOADED ZIPPED VERSION) should reside in your WINDOWS\SYSTEM directory. VBRUN300.DLL is available on most bbs, America Online, and Compuserve.

SETUP

1. Unzip the zipped file to a floppy diskette (or create a temporary directory, unzip using PKUNZIP, run setup, then delete the temporary directory).
2. Unzip the file using PKUNZIP version 2.04G or later.
3. Be sure there is a copy of VBRUN300.DLL in your Windows\System directory.
4. In Program Manager, Click File/Run/A:\SETUP.EXE.
5. Setup will create a program group and program item for Christmas Clock for Windows.

=====

PLEASE NOTE:

Read the README.WRI AND ORDER.WRI for information on ordering additional Windows Clocks for other holidays.

IMPROVEMENTS TO VERSION 1.2:

Changed display of shopping days til Christmas to the color white and the time to color red..
Corrected spacing problem of days til Christmas when 3 numbers are involved.
Corrected 'bug' - negative number of shopping days from December 26 until January 1.
