Stone Design

Stone Design Corporation, of Albuquerque, New Mexico was founded in 1984 and develops a variety of business productivity applications for NEXTSTEP. We have been shipping software for NEXTSTEP since 1989 when we released the acclaimed type styling program TextArt™.

A major supporter of the NEXTSTEP community, Stone Design is committed to the success of object oriented programming. Come to our annual rave at Expo!

Shipping products include:

DataPhileTile.tiff ~ **DataPhile**, a flatfile personal database development and management application, shipping since April 1991.

CreateTile.tiff ~ **Create**, full-color drawing package which incorporates all of TextArt's type effects, shipping since October 1990.

3DRealityTile.tiff ~ **3D Reality**, a 3D modelling and rendering application. Shipping since October 1992.
