+3867 THE ZX FILES #1 UNPACK DISK

The ZX Files is a disk magazine dedicated to everyone out there who either still uses a Spectrum or uses the Spectrum emulator on the Amiga. As this is the first issue, articles are a bit thin on the ground, but the author is hoping that YOU lot out there will contribute. This issue contains various cheats, instructions for quite a few games, some speccy artwork (?) and some technical news from the last few years. So put on those rose tinted spectacles and get bashing those rubber keys.
