"I used MagiBOOSTER, and now I have a sore arm, but I'm having a great time!"

—Adaam Leaf

## Hello, My Name is MagiBOOSTER

MagiBOOSTER is a attribute booster for Magic Users, Enchanters, and Clerics. It gives you at least 30 in the first four attributes—Strength, Wisdom, Intelligence, and Dexterity. So, even if you aren't strong, wise, intelligent, or speedy, you can pretend to be.

## So, MagiBOOSTER, Where Do You Work?

Use MagiBOOSTER with all your magic using characters by launching the application, selecting the file you want to "adjust" then get to killing everyone. It's your party, and you can kill if you want to.
