Deliverer

"40th level? I thought it was impossible, but with a few days of play, and RED, I ran right through that light and took the ticket to better gameplay."

—Simon Sumimang

## Door To Door Delivery

RED gives you -1 experience. With this advantage, you can go into one battle, and come out with one higher level. I wish I could get a promotion that quickly!

## 1-800-DELIVER

RED can deliver up to 3 files at a time. So give your characters a break, and order up some pointage. Get it while it's hot. Use the R.E.D. for Magic-Users & Thieves on Magic-Users, Clerics, Enchanters, and Thieves. Use R.E.D. for Fighting Classes on Fighters, Rangers, Paladins, and Monks.

## No Guarantee For On Time Service

When used with other cheats, you may make the game EXTREMELY EASY.  
Watch out, you may spoil the game.
