Two Hand TOUCHER

"I used to use one hand, but I find that using two can be of more use."

—Wally Ashmeeti

Touch On This

If you use a two handed weapon, you get a BIG advantage when using this cheat. So if you only use one hand now, use two. You'll love it.

Touch Yourself

Just select a Fighting Class [except for Monk] to "adjust" and you're on your way to better two handed fighting. Go for it. Make someone's day. Make your own day, for all I care.
