

Bugz, and How To Kill Them

Bugz? What Bugz???

As this is Release 1.0, we don't know of any bugz, other than when you spill Coke on your keyboard when you use RUN. But, if you do find any, send your pleas for Raid bugz killer, or just a plea for a bugz fix to Wizard Oz at Ionian Polises. Why not just let 'em go though... there's more to life than computer games. (Not only that, I don't know how to fix bugz. But, I will make a valient attempt nontheless.)
