

Dear Downloader,

This course is only for the best. The best of the best. I encourage you to send this download to other people as long as you don't upload it into a folder. I worked very hard on this course and it took me a few hours to make. I suggest you look at the course preview before trying this course.

I enjoy feed-back on all of my courses and if enough people download my courses I will start a QwikTricks Mac Ski Fan Club and everyone who joins will receive all of my courses. So in order for me to start a fan club tell all of your friends on-line to download my courses.

But most importantly, have fun on my courses. :)
