(you need Netscape in background, then click on this graphic)

If you don't like to read a lot - here are the basics:

You fly this spaceship:

- use arrow keys (or number pad) to move your ship (up, down, left, right)
You can also press 2 keys (example: up+right) to move diagonal.
- press "SHIFT" for fire.
- press "A" for auto-fire. (on/off)
- p for pause
- ESC to abort a mission

More infos about crystals and devices: go to crystal or device shop.
