

Galaxus is Shareware

The concept of shareware is simple - first try then buy.

Galaxus is a game that was very long in development. We can't give it for nothing!

18 Swiss Francs (is about US\$14) is a fair price for this game.

If you register up to March '97 you get Dark Corona free. (same registration code)

We give you 3 (short) missions to test - if you like it, pay the shareware fee and you get a code.

Enter this code and you can play all 15 missions!

If you don't like the game write to support@algomedia.com and we will see how to improve it...

You can get the code via internet, fax or postal mail!

Why should I register Galaxus ?

- * Full access to all missions
- * you get a full Internet-Support (<http://www.algomedia.com>) (updates, your ideas etc.)
email support: galaxus@algomedia.com
- * Dark Corona is free (until March '97)
- * You support the best platform - the Macintosh Computer. We will continue to develop for the Mac.

How to register ?

the fastest way to get the code: via email

- Pay with VISA/MasterCard and you get the code within 24h.
- You can also send us cash - and as soon as we get your letter we send an email. Warning: always send cash at your own risk.

If you don't have an email you get a printed code via postal mail.
