

INSTALLATION UNAVAILABLE!!

This program was designed to run directly from the CD-ROM. We apologize if this inconveniences you in any way. However, we intentionally designed this CD and all of our CD's this way for a few pertinent reasons.

1. To perform any kind of install to an end user's system, would require utilizing some of their invaluable hard drive space. We found installation potentially dangerous and very inconvenient for most end user's.
2. This CD was designed, was for "ease of use" for all end user's considered. Currently, it's just a matter of knowing which drive is the CD-ROM and inserting the disc. Within our survey's and testing procedures, this was rated the most desirable method for playing computer games.
3. It also enables us to provide a 100% physical data integrity by keeping all of the data (either program related or text files needed) on the CD. A little food for thought...we sold over 2 million CD's last year and received less than 1,000 technical support calls. Which is less than one-tenth of a percent. The average in the industry is 10-18%. We must be doing something right?!
4. The last reason would be that it protects our programs from any illegal copying and distribution due to it's set-up with no installation.

We hope you enjoy this CD and the program(s) within. Enjoy!

THE END
