

The Corel

Commercial Printing Guide

Table of Contents

INTRODUCTION **vii**

CHAPTER 1 UNDERSTANDING THE DIGITAL PREPRESS PROCESS

The Prepress Process 1-2

Choosing a Service Bureau 1-3

Introducing Printing Methods 1-4

Offset Lithography 1-5

Introducing Color Management 1-6

Using Bitmapped Images 1-7

Using Vector Images 1-8

Scanning Images 1-9

Printing Continuous-Tone Images Using Halftone Screens 1-10

Reproducing Color Using Color Separations 1-11

Color Trapping	1-12
Using Imagesetters to Produce Film	1-12
Proofing Your Work	1-13

CHAPTER 2 WORKING WITH COLOR

Defining Color	2-2
Color Models	2-4
Electronic Color Management	2-6
Color Correction & Gamut Alarm	2-8
Tuning your system	2-9
Monitor Calibration	2-10
Monitor Characterization	2-11
Scanner Characterization	2-12
Printer Characterization	2-13
Setting Printer Ink Coverage	2-14

CHAPTER 3 DIGITAL IMAGING

What is Scanning Quality?	3-1
Understanding the Basics of Resolution	3-2
Understanding Input Resolution	3-3
Factoring in Enlargement	3-4
Understanding Color Depth	3-4
Understanding Dynamic Range	3-4
Choosing a Digitizing Device	3-5
Understanding Scanning Technology	3-5
Choosing the Appropriate Digital Imaging Device	3-7
Evaluating Source Images	3-9
Considering Dot Gain	3-9
Avoiding Physical Imperfections in the Original	3-9
Avoiding Resampling	3-9

Evaluating the Tonal Characteristics	3-10
Avoiding Color Casts	3-11
Evaluating the Sharpness	3-11
Evaluating the Medium	3-12
Choosing an Appropriate Input Resolution	3-12
Saving the Scan Results	3-14
Saving as TIFF	3-14
Saving as EPS	3-15
OPI: Dealing with Large File Sizes	3-15

CHAPTER 4 PREPARING FOR FILM OUTPUT

Creating Halftone Images	4-2
Converting Continuous-Tone Images to Halftone Images	4-3
Creating Digital Halftones	4-4
Maximum Screen Frequency and Dot Gain	4-5

Stochastic Screening	4-6
Bitmap Resolution and Halftone Screen Frequencies.	4-7
Creating Color Separations.	4-8
Process Color	4-9
Spot color	4-10
Duotones.	4-11
Color trapping	4-12
Basic trapping methods.	4-13
Printers' marks.	4-14

CHAPTER 5 PRODUCING FILM WITH AN IMAGESETTER

Preparing for Imagesetting	5-2
PostScript.	5-3
Reducing the Complexity of Vector Images	5-3
Keeping your File Tidy	5-4

Sending Your Work to the Service Bureau..... 5-5
 Choosing the Best File Format..... 5-6
 Managing Fonts..... 5-7
Color Problems 6-6
