Working Implementation
Agreements for Open Systems
Interconnection Protocols:
Part 15 - Transaction Processing

Output from the December 1993 NIST Workshop for Implementors of OSI
SIG Chair: Jeff Hildebrand
SIG Editor: Jeff Hildebrand

Foreword

This part of the Working Agreements was prepared by the Transaction Processing Special Interest Group (TPSIG) of the National Institute of Standards and Technology (NIST) Workshop for Implementors of Open Systems Interconnection (OSI). See Procedures Manual for Workshop charter. Text in this part has been approved by the Plenary of the above-mentioned Workshop. This part replaces the previously existing chapter on this subject. There is some change from this text as previously given. References are made to other sections of both the Working and Stable agreements. Future changes and additions to this version of these Implementor Agreements will be published as a new part. Deleted and replaced text will be shown as . New and replacement text will be shown as shaded.
