program by Howard Dortch and Mike Coriell

This is version .98 of the program. I would like to thank everyone for their support in helping get the program this far. The 1.0 release version is due out by March 1991 so if there are any more features you would like to see let us know. This version is available with the SAVE enabled for 20\$. And as before the 20\$ will go towards the 1.0 release. The hardware is being tested and should be ready in March. Beta testers who have the prototype of the hardware can exchange it for the new prototype any time. We have moved to the new store please note the change in address.
