# Rules

The aim of this game is to get the ball into the whole with as few hits as possible.

In each level you can hit the ball six times. If you still didn't make it with the sixth hit you will be punished with a seventh extra hit in the points list.

Alltogether there are 18 levels.

The player needing the least hits to get across the field is winner.

# Registration

## **By registering you are having the following advantages:**

1. You can play all 18 levels instead of the only six shareware version levels.
2. You will not be bothered by shareware reminders anymore.
3. You are helping to let this product be developed further and more new levels to be created. Even though we still know many features of this program which could be enhanced a lot we had to publish it like this because developing software needs lots of financial resources and we were short of them.

If enough people register this program we will not hesitate to spend more money into developing it.

We believe in the principle of shareware: **Let the people try before they buy.**

The price for the **keycode** to turn this shareware version into the registered fully playable version (**no disks are needed or to be send**) is 25 US \$ or a corresponding amount in **any freely convertible currency** (look for national prices below or in the file REGISTER.WRI).

You can pay with any normal national bank cheque or an international money order. Please try to avoid sending cash money.

Members of **Compuserve** can register via their Compuserve account (GO SWREG) where TZ-Minigolf for Windows V1.0 is listed as # 6175
