# Chapter 1

## 0715fd78-1

### 1.1 "

If any of the games require a keyboard or mouse it is possible that they will work with the emulated mouse and keyboard of the Amiga if you load Sernet first.

OOOPS ! Klondike AGA and Motorola AGA require more memory than is available after Workbench has loaded. You will just have to copy their drawers to your hard drive, edit the startups in the startups drawer to reflect the name of your hard drive and then execute the startup.....

STOP PRESS:- Hold down the RED Button on the CD32 controller when the 'AMIGA CD32' logo appears, to boot the Motorola AGA Game.

Directory "NetworkCD:Games/Startups" on Sunday 24-Sep-95
