Network CD2 Improvements

This document details the many improvements in upgrading to Network CD 2.

1. Network CD now boots in about 45 seconds, a significant speed difference.
 2. More memory is free for CD32 usage after booting into Workbench.
 3. Magic Workbench colours and icons (8 colours) improving responsiveness.
 4. Fake fastmem created to marginly improve performance.
 5. Programs loaded can be controlled from the Amiga.
 6. Sernet available at various speeds up to 115,200 baud rate.
 7. Keyboard and mouse emulation for CD32.
 8. Sernet set-up simplified to only one button press.
 9. Twin Express available at various speeds up to 230,000 baud rate
 10. Dopus 4.12 control of Twin Express through Arexx.
 11. Serlink, a new comms program for Network CD 2.
 12. Emit at 280,000 baud rate.
 13. Internet utilities.
 14. 500 New AGA images with indexes.
 15. Animations, Demos and Games.
 16. Graphics and Sounds programs.
-

17. Disks for your Amiga to boot or configure.
