

n

page 75, line 15

Change `\thebibliography` to `\bibliography`.

page 79, line 16

Change `kdiplayingl` to `kdisplayingl`.

page 88, line 27

Change `kentire the paragraphlto kthe entire paragraphl`.

page 89, line 16

Change `kpage-breakingl` to `kline-breakingl`.

page 95, line 5

Replace `k.01inl` by `k1.01inl`.

page 96

In the penultimate paragraph of Section 5.4.2, replace

`The \vfill` command is an abbreviation for `\vspace\fill`.

with the following:

The `\vfill` command is equivalent to a blank line followed by `\vspace\fill`.

page 98, line 6

Remove an `kil` from `kdirectionl`.

page 102

In Figure 5.1, replace the two occurrences of `k-1.8l` by `k?1.8l`.

page 104, line ?3

Correct the spelling of `kpositioningl`.

page 113

Change the label on the arrow above Item 2 from `\itemsep` to `\itemsep + \parsep`.

page 116, line 20

Change `kfourteen-point Plus Romanl` to `ktwelve-point Plus Romanl`.

page 118, line ?10

Change this line to:

```
... (myfile.tex [1] [2] [3] (part1.tex [4] [5]) (part2.tex [6] [7]
```

page 129

The following L^AT_EX warning messages should be listed:

No ... typeface in this size, using ...

A type style declaration specified a type style and size combination that is not available, so L^AT_EX is substituting another one.

... in math mode.

The indicated command is not permitted in math mode but was used there.

Remember that `\boldmath`, `\unboldmath`, and size-changing commands may not be used in math mode.

pages 141m142

Change `kvon Beethoven` to `kvan Beethoven`.

page 142

Add the following near the bottom of the page, just above the **Titles** heading.

If an `author` or `editor` field has more names than you want to type, just end the list of names with `and others`; the standard styles convert this to the conventional *et al.*

page 147, line 6

Change `kScribe-compatible` to `kScribe-compatible`.

page 152, line ?6

Add `\newtheorem` and `\hyphenation` to the list of global declarations.

page 157, line ?10

The first paragraph of Section C.3.1 should note that the `*`-form of a sectioning command does not affect the running head.

page 158, line ?12

Change `kchaptersl` to `kappendix chaptersl`.

page 160, top line

Change `k(Section 5.6)` to `k(Section 5.3)`.

page 160, line ?9

Change the description of the `openbib` style option to: `kCauses the bibliography (Section 4.3) to be formatted in open style. (See van Leunen [7].)`

page 163, line 19

Change `kSection 5.1.2` to `kSection 5.1.1`.

page 168, line ?5

Replace `kprinted as \ l` by `kprinted as l`.

page 169, line ?5

Change `kfirst and third rowsl` to `kfirst and third columnsl`.

page 169, line ?3

Add a period to the end of the sentence.

page 170

Add the following paragraph after line 5:

An `overfull \hbox` warning occurs if a formula extends beyond the prevailing margins. However, if the formula does lie within the margins, no warning is generated even if it extends far enough to overprint the equation number.

page 174, line ?1

Add the following sentence: `kIt is a global declaration.`

page 176

Change the four lines immediately following the heading for Section C.8.1 to:

<code>\beginfigure[<i>loc</i>]</code>	<i>body</i>	<code>\endfigure</code>
<code>\beginfigure* [<i>loc</i>]</code>	<i>body</i>	<code>\endfigure*</code>
<code>\begintable[<i>loc</i>]</code>	<i>body</i>	<code>\endtable</code>
<code>\begintable* [<i>loc</i>]</code>	<i>body</i>	<code>\endtable*</code>

page 185, line ?5

Replace `ksuppresses commandl` by `kcommand suppressesl`.

page 187, lines 15m17

The sentence `kIt also writes bib_files!` is redundant and can be eliminated.

page 188, lines 1, 2, 4, 8

Change `kkey_istl` to `kkey_listl`.

page 191, line 13

The word `kparagraphl` misspelled.

page 191, line 14

Remove the space between `\begin` and `sloppypar`. (This is for consistency only; LATEX ignores the space.)

page 199

Add the following sentence to the last paragraph on the page:

Words typeset in typewriter style or in two different styles are not hyphenated except where permitted by `\-` commands.

This is a change to LATEX made on 18 December 1985.) Also, add the following index entry citations to this page: `k\ -l`, `khyphenation`, `ksuppressedl`, and `ktypewriter type style`, `no hyphenation inl`.

page 217

Add the subentry `kopenbib, 160l` to the index entry `kdocument-style optionl`.

page 223, column 2, line 13

Change `kmadl` to `kmadel`.

page 225

Add page 47 to the index entry for `kLeunen, Mary-Claire vanl`.

page 228

In index entry for `\multicolumn`, change `k194l` to `k184l`.

Tear-Out Command Sheet

In the first column, sixth line after `kSentences and Paragraphsl` heading, replace `k& &l` by `k& \&l`.

0.2 First Five Printings

page xiii, line ?7

The hyphenation of `kLeunenl` is obviously incorrect.

page7, line 33

Add the following sentence after `k[6].l`

(Many of the details of L^AT_EX, including command names, were also taken from *Scribe*.)

page 12, line ?7

Replace `keveryl` with `keverl`.

page 53, line 16

Change `kmath italic` is the default in math model to `kmath italic` is almost identical to the default type style of math model.

page 71, last line

Change `kcomandl` to `kcommandl`.

page 84

Add the following paragraph just after line 2.

Some commands, such as `\chapter`, change the style of the current page. You can change it yourself with the `\thispagestyle` command.

Also, add the appropriate index entries for `\thispagestyle` and `\chapter`.

page 88, line 29

Change `kitsl` to `kitjsl`.

page 91, line 5

It should be noted that in the `book` document style, `\chapter` uses `\cleardoublepage`.

page 111, line ?4

Remove the extra `t` from `kwithtoutl`.

page 122, line 17

Change the sentence that begins `kThe most probable cause isl` to the following:

The most probable cause is a list-making environment with no `\item` command.

Page 126, line 12ff

An `un\protected` command `even` a robust one in the argument of one of these commands can cause `TEX` to run out of this kind of space. It's a good idea to `\protect` all commands in these arguments.

Page 153, top of page

It should be noted that if the invisible `kwordl` occurs at the end of a paragraph, not attached to a real word, then it could appear on a line by itself, producing a blank line in the output.

Page 160, line ?7

Replace `kequationsl` with `kequationl`.

Page 162

In the description of `\pagenumbering`, it should be mentioned that the command sets the value of the `page` counter to 1.

Page 161, line ?9

Replace `khead informationl` by `khead information (but not page number)l`

Page 162, line 6

Replace `kheadingl` by `kheadingsl`.

Page 177, line 1

It should be noted that, in a two-column page style, a single-column figure can come before an earlier double-column figure, and vice-versa.

Page 177, line ?1

Replace `kpagel` with `ktext pagel`.

Page 178, lines 1 and 8

Replace `kpagel` with `ktext pagel`.

page 183

The description of
