

## About the Maelstrom Installer

This installer will create a folder called "Maelstrom 1.4.0 f" on your hard drive, and place the latest version of Maelstrom in it.

### Installing the Software

- If you are using any anti-virus utility other than Disinfectant™, please turn it off before proceeding. Anti-virus utilities such as Virex™ or SAM™ tend to interfere with installers.
- Use the Drive button to select the disk where you would like to have the software installed.
- Click the Install button to begin the installation. The installer will place all files in a folder named "Maelstrom 1.4.0 f" on the selected disk.
