How to install the evaluation version

     Installation of this package is straight forward:
1) Create a folder named "Evaluation PSpice" on your hard disk.
2) Drag the contents of all 3 diskettes into this folder.
3) For Macintosh-specific information, read the files:
     RunningPSpice.Word (or .Edit),
     RunningProbe.Word (or .Edit),
     RunningParts.Word (or .Edit),
