

**Special General Thanks:**

...to America Online for facilitating our keeping in touch and for never interfering with our independence.

...to Jens' erstwhile co-workers Laurie Hume, Ed Bertschy and Matt Rowe, for daring to play with ridiculously primitive early versions of Wallpaper and for creating lots of patterns.

...to Jim Heartney for creating all of our Thought I Could logos, manual cover and special art.

...to Geoff Latta for his good spirits, typographical skills, and lino output.

...to Mel Beckman for his work on our Installer dialog.

...to Jens' girlfriend, Diana Foss, for cheerfully putting up with his spending large portions of many weekends hunched over the computer, and for drawing the holiday patterns.

...and to all of the bears who helped Jeremy & Anne, especially Brown Music Bear.
