

Future Plans for Calculator II:

1. Make parentheses functional.
2. Force Calculator to solve equations using the standard Hierarchy of Operators.
3. Option to display commas every 3 digits in results window.
4. Switch to display Statistical, Business, Scientific, or Programmer functions.
5. Option to display negative numbers in red color or parentheses instead of with leading negative sign.
6. Ticker tape available for display and output to disk.
