Modification history:

- 01/05/90 Designed
- 06/02/90 Released version 1.0

- 09/22/90 Released version 1.01
 - Supports "Background" color from GIF87a specifications.
 - Supports the following GIF89a features:
 - Graphics Control Extension
 - Δ Transparency
 - Δ User input flag
 - Δ Time delay
 - Δ Restore to previous
 - Δ Restore to background
 - Plain Text Extension (formatted text with color or transparency)
 - Comment Extension (Use the GIF Comments [Cmd-G] feature to view. Only available if the picture has a comment and when the picture has finished being completely decoded.)
 - Does not support Aspect Ratio.
 - Key system revised to prevent occasional crash when unlocking.
 - Now centers all "dialog" windows.
