

AutoMenus II

Version 1.0.1
ReadMe File

Introduction

This file contains information which is not included in the online help located within the AutoMenus II Control Panel. Detailed operating instructions can be obtained by using the online help system.

Installing AutoMenus II

To install AutoMenus II, just drag the AutoMenus II icon on top of the System Folder icon if using System 7. The Control Panel will be placed in the proper folder automatically for you. If you are using System 6, place the AutoMenus II icon in the System Folder.

Note that you will not be able to access the Control Panel until after you restart your Macintosh™.

Personalizing AutoMenus II

To personalize AutoMenus II after you have registered with me, open the Control Panel and wait for the registration dialog to appear. Enter the keycode provided to you when registered and your name or company and press "OK".

The AMConverter application is no longer needed for AutoMenus II. **Do not** use the AMConverter application on AutoMenus II or you could damage your copy.

Special Order Information

If you are physically handicapped and AutoMenus II makes using the Macintosh™ easier, send me the order form included in the archive and check the "Special Offer" item. Do not send any money! I will send you the key code at no charge. Knowing it is helping someone use the Macintosh™ is payment enough for me.

Feed Back

If you have any thing to say regarding AutoMenus II (bugs, comments, suggestions, etc.), please feel to drop me a note. Send any correspondence to:

E-MAIL:

Sunnyvale, CA 94086

If you are sending a bug report, please describe the bug in detail. When it happens, what programs are running, and what extensions (formerly inits) you have loaded.

Legal

AutoMenus II is Copyright © 1990-92, Michael J. Conrad. All Rights Reserved World Wide.

AutoMenus II may NOT be distributed via commercial distribution methods without prior written consent from the author (Michael J. Conrad).

You may not distribute AutoMenus II in its non-demo state.

This ReadMe file and order form MUST accompany the AutoMenus II Control Panel if you distribute it. And, AutoMenus II must be in its demo state.

Version 1.0.1 Fixes

- △ AutoMenus II would crash at start up on non-color systems.
- △ The wrong icon would appear on B/W systems in several dialogs.
