

# Japanese Prelector

## Vocabulary and Kanji study system for the Macintosh

Japanese Prelector™ has been designed specifically to improve the effectiveness of study in two important areas of Japanese language - vocabulary and Kanji. It also functions as a powerful computerised dictionary, aids students in forming correct grammar, and helps teachers arrange and control aspects of course content.

- the program **automatically tailors vocabulary exercises** to each individual student by keeping track of every word and Kanji character they learn over the full duration of their course, providing a profoundly effective way of maximising study quality.
- new words can be added to the program at any time, providing teachers (and students) with the ability to **construct customised vocabulary lists**.
- large, clear, handwritten style Kana and Kanji character fonts are supplied, which have been specially prepared for this software. Consequently, KanjiTalk™ is not required.
- vocabulary exercises are **fully interactive**, and teach Kana and Kanji reading and writing in addition to Eng->Jap and Jap->Eng translations. Exercises are enhanced with Japanese ink paintings displayed as backdrops and digitised sound effects.
- this software **operates at high speed** since it is not Hypercard based.
- words can be looked up by any combination of Kana, Kanji, English, word type, etc.
- a **student progress information** screen provides on-going feedback, such as the number of words and Kanji learnt, and various **study timers**.
- **includes 1850 Kanji characters** and 800 words of vocabulary
- a range of powerful new features are planned for future versions
- Macintosh version now available, IBM PC windows version due late 1993
- designed and **developed in Australia** in association with the University of Adelaide
- **low cost** - Japanese Prelector™ Pack (for a single user) \$38.00  
MultiUser Pack (for educational institutions) \$79.00

(Actual size word as displayed on the Macintosh screen)

**Get your Pack now** by sending a registration form (with payment) to Michael Wildoer:

**Postal Address: Vitronics, GPO Box 215, Adelaide, Australia, 5001**

**Telephone/Fax: Australia (08) 235 0003**

**International 618 235 0003**

**Internet E-mail: mwildoer@economics.adelaide.edu.au**

As the power and utility of this software increases, certain functions and features may change without notice.
