Installation Instructions

Congratulations! You've just downloaded the neatest little set of animated cursors around. Just follow the installation procedures, and you'll be on your way to using Buford Beagle.

(Reminder: If you don't have Windows® 95 or Windows NT™, then you can't use Buford Beagle. Sorry!)

From the downloaded self-extracting file "Beagle10.exe", you received the following files:

Buford Beagle Setup.wri: The text file you are now reading. It contains the installation procedures for the Buford Beagle Animated Cursor Set

Order Form.wri: An Order Form for purchasing the full set of the Buford Beagle Animated Cursor Set

Catalog.wri A catalog file listing the cursor sets available from K'n S Associates. Along with the cursor set names, the file includes catalog numbers, unit prices, and color pictures to represent the cursors.

Buford Beagle Normal Select.ani: Demo cursor used for normal pointing.

Buford Beagle Text Select.ani: Demo cursor used for text selection.

Buford Beagle Diagonal Resize.ani: Demo cursor used for resizing a window diagonally.

The following is a list of the Windows® 95 (also for NT 4.0) and Windows NT™ (version 3.51 or below) cursor/pointer types for which the demo cursor files would best be used (these are only suggestions):

Or, if you prefer, you may order an uncompressed version of the cursor sets which you will receive via U.S. Mail on a floppy disk (U.S. orders only).
